

Multifunctional SMT Pick Place Machine LED Lens SMT Chip Mounter Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: RT-1
- Minimum Order Quantity: 1PCS
- Packaging Details: WE USE VACUUM WOODEN BOC PACKAGE
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50PCS/Month

Product Specification

- Model: RT-1
- Warranty: 1 Year,12 Months
- Name: SMD Chip Mounter,SMT Pick And Place Machine,SMT Chip Mounter
- Application: SMD Production Line,SMT Mounting Shooter Machine,SMT Production Line,for SMT Machine
- Power Supply: 380V 50HZ
- Condition: 100% Original,Brand-new
- Product Name: Place Machine\ LED Mounter\LED Assembly Machine,Automatic SMT Mounting Shooter,SMT Shooter Machine
- Weight: 1200KG
- Mounting Speed: 40000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly,SMT Mounting Machine,SMD,LED

Product Description

SMT Multifunctional pick and place machine mounting for led lens chip making machine

Specification:

Dimension:1200*1930*1500mm

Total Weight:2000kg

PCB Length Width:Max:450*350mm Min:80*80mm

PCB Thickness:0.1-6mm

PCB Clamping:Pneumatic

Mounting Mode:Group picking and separate placing separate picking and separate placing

No. of Camera:2 PCS

Mounting Precision:±0.04mm

Mounting Height:≤15mm

Mounting Speed:40000 CPH

Components:LED,capacitors,resistors,shaped components, etc.

Power Consumption:4kw

No. of Feeders Station:32pcs

No. of nozzles:10pcs

Transmission Speed: 1000mm/sec

Production line

- 1.electronic products pursue miniaturization, previously used perforated plug-in components have been unable to shrink
- 2.Mass production, automation, low-cost, high-volume, high-quality products to meet customer needs and enhance market competitiveness.
- 3.the List of semiconductor materials technology revolution is imperative

Lens for street light

Glass lens for street lamp has the characteristics of high temperature resistance and high penetration, but the glass quality is heavy, fragile, high cost, and so on. • The penetration rate of PC and PMMA is second only to that of glass, and the

temperature resistance of PC and PMMA is not as good as that of glass. Furthermore, PC and PMMA have significant advantages in terms of materials and production costs. Because different roads have different optical requirements, such as: Street lamp height, distance between street lamp poles, the type of road, so the requirements of street lamp lens angle are not the same. Generally speaking, the street lamp lens focusing angle specifications are: 60 degrees, 80 degrees, 100 degrees, 120 degrees several. Circular spot: generally used in the courtyard area road; exposure and illumination requirements are not very high. Oval-shaped spot: generally used in motor vehicles or non-motor vehicle lane, effective effect of rectangular spot: applied to the motor vehicle lane, focused light evenly distributed on the road, uniform spot.

FAQ

Q:Do you have wave soldering machine?

A:Sorry, at present, we are the manufacturer of pick and place machine, but also provide the related SMT machine, such as reflow oven, stencil printer, conveyor, loader machine and so on.

Q:Can i visit the production site of your machines in India?

A:i have to ask my client. After all,this is our customer's factory.we cant not make decisions for my clients. I think that you wouldn't want your competitors visit your manufacturing site.please understand.
