

SMT LED Strip Taping Machine 3m 5m Strip LED Lights Assembly Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: ET-600
- Minimum Order Quantity: 1 SET
- Packaging Details: STANDARD WOODEN BOX
- Delivery Time: 15 WORK DAYS
- Payment Terms: T/T
- Supply Ability: 50 SETS PER MONTH

Product Specification

- Product Name: Strip Light Tap Machine
- Voltage: 220V 50-60HZ
- Power: 40w
- Function: Automatic Rubberizing
- Weight: 70KG
- Range Of Application: Soft Light S Type Light
- Highlight: **SMT LED Strip Taping Machine,
5m strip LED Lights Assembly Machine,
40W LED Lights Assembly Machine**

Product Description

led strip 3M taping machine in 5m strip light making

Machine details:

voltage: 220V 50-60HZ

power: 40W

weight: about 70KG

size: length 1800*, width 400*, high 1100MM (adhesive product length is not limited);

the scope of application:

Product function:

Can realize a variety of products automatically paste double-sided adhesive function;

The machine feeding can be fully automatic, semi-automatic switching;

Glue height adjustable, can be changed according to different product height;

Double-sided adhesive width adjustable, can adjust the width of double-sided adhesive according to different product sizes, can be arbitrarily switched;

It can realize single or multi stick double glue at the same time, and the efficiency is higher.

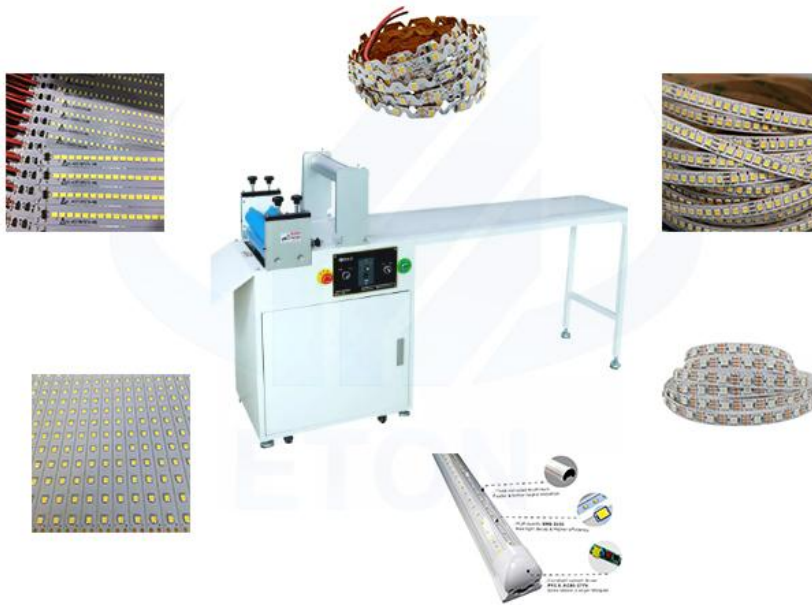

Advantages of this machine:

1. The precision of glue application is high, and the precision of glue application can reach -0.15MM, which is unmatched by other manufacturers;
2. The mold is customized according to the customer's sample, does not damage the lamp beads, and the positioning is accurate. The product qualification rate is 99.99%, and the mold is maintenance-free for more than 5 years;
3. The roller is made of soft colloid, which fully guarantees that the light bar will not damage the lamp beads during the bonding process, and both 3014 and 4014 are applicable;
4. Maintenance and maintenance are convenient, and mold replacement can be completed in only 5 minutes;

Application range

Rigid light bar, flexible light bar, S-shaped light bar, backlight, daylight bar, etc.

FAQ

Q: What we can do for you?

A: We provide SMT machines, we can also provide Production line scheme and equipment, like: pick and place machine, semi-auto/full-automatic printer, conveyor, reflow oven, smt glue dispenser, loader/unloader, solder paste mixer, etc. Professional Technical Support and Service.

Q: What is your delivery date?

A: The delivery date is about 30 working days after receive the payment. If machine in stock, we can delivery it within 15 work days.

Q: What is your payment terms?

A: TT, 30% payment in advance, the remaining 70% is paid before shipment

Q: This machine is easy to use? If I have no experience, I can also operate it well?

A: Yes, our machine is designed to use easily. Normally it will take you 1 day to learn how to operate, if you are a technician, it will much faster to learn.

Q: Do you provide the user manual and operating videos to support us?

A: We will provide the English user manual for free, and the operation video is available. Our software is all English.

Q: If we come to your factory, you will provide the free training?

A: Yes, warmly welcome you to visit our factory, we will arrange the free training for you.
