

Flexible strip mounting pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: HT-T9
- Minimum Order Quantity: 1PCS
- Packaging Details: We use vacuum wooden box packaging
- Delivery Time: 5-8days
- Payment Terms: L/C, T/T
- Supply Ability: 50pcs/month

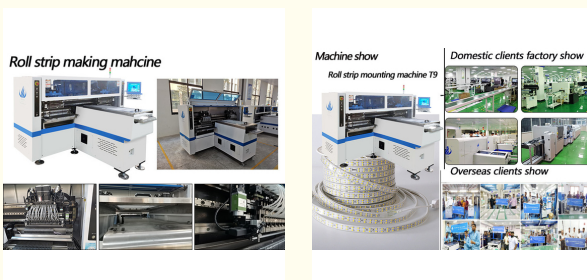

Product Specification

- Model: HT-T9
- Length: 3100mm
- Width: 2300mm
- Height: 1550mm
- Total Weight: 1700kg
- PCB Length Width: 250mm*ang Length

Product Description

Flexible strip mounting pick and place machine

Introduction to 0.5,1m soft light strip splicing

The 0.5m and 1m soft light strips are usually spliced into 5M and 10m, which are usually configured to stabilize the luminosity. They belong to the old process, and are usually low-voltage light strips such as 12V and 24V. They are commonly used for indoor lighting, indoor landscape decoration, environmental decoration, etc. It is characterized by low water resistance and safety.

Introduction and application of 5m soft light strip

There are usually two forms of 5m low-voltage lamp strips: one is a soft lamp strip of 5m spliced from 0.5m or 1m; One is the soft lamp strip directly mounted with 5mpcb soft board. 5M and 10m are the lengths of common low-voltage soft lamp strips. It is often used in interior decoration and interior lighting. Patch production line scheme (T9)

Introduction and process of 25m / 50M / 100M soft light strip

The 25m / 50M / 100M soft light belt is generally a high-voltage light belt with a voltage of 220V and a high risk factor. It is often used in places where people cannot touch, such as outdoor lighting, building decoration, landscape decoration, etc. Patch production line scheme (T9)

Production process comparison table

0.5m/1m: printing solder paste -- patch -- reflow soldering -- testing -- Packaging

5m (half meter splicing): printing solder paste -- patch -- reflow welding -- plate cutting -- 0.5m welding -- testing -- plate splitting -- testing -- adhesive backing -- reel

5m, 50m, 100m: printing solder paste -- patch -- reflow soldering -- testing -- plate splitting -- glue wrapping -- reel

Cilient

We have more than 10 years of experience in the SMT industry. We have 52000 square meters of Industrial Park in Jiangxi Province to support CNC and OEM. We have obtained 133 patent certificates and CCC, CE and Sira certification Every year, hundreds of our machines are sold abroad, such as India, Turkey, Pakistan, Iran, Egypt, Vietnam, Algeria, etc. rk, Surya, polycab, rangdong, Unistar, etc. are our customers.

FAQ

Q:What is the delivery date?

We will deliver the goods after 30 days' deposit.

Q:Is electrical control developed independently?

Yes, the electrical control is by ourselves and have exclusive patent technology.

Q:Are you a manufacturer or trading company?

manufacturer. We have our own industrial park.

Shenzhen Eton Automation Equipment Co., Ltd.
