250000CPH 68 heads LED Mounting machine for wireless flexible strip

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

Product Specification

- Warranty: 1 Year
- Name: SMT Pick And Place Machine
- Power Supply: 380AC 50HZ
- Condition: 100% Original
- Weight: 1700kg
- Mounting Speed: 250000CPH
- Dimension: 3100*2300*1550mm
- Feeders: 68
- Pcb Thickness: 0.5~1.5mm

Product Description

Product description

Mounting machine HT-T9 with dual arm magnetic linear, producing 4 types materials at the same time capacity reach 250000CPH. Able to produce flexible light belt products of any length at ultra high speed and roll to roll, such as 0.5m, 1m, 5m, 10m, 50m, 100m, 500m, etc.

Feature Description

- 1, Mounting machine is dual arm four module, 17 nozzles for each mounting part, part A or part B can be mounted separately or synchronously.
- 2, Calibration automatically, high precision, available for RGB.
- 3, Unique design components leaking detection and individual component refill function.
- 4, Intelligent electric feeder, supporting high speed mounting machine series
- 5, Flight recognition camera, no pause to detect the presence and absence of component, component adsorption state, prevent placement errors.
- 6, The clamping rod is driven by the air cylinder to correct the material taken by mounting head.

Parameter

| | |
|---------------------------|--|
| Product name | Mounting machine |
| Model | HT-T9 |
| PCB size(mm) | Max:250*any length |
| PCB thickness | 0.5-1.5mm |
| Mounting component height | 5 mm |
| Mounting precision | ± 0.02 mm |
| No. of camera | 5 PCS |
| No. of nozzles | 68 PCS |
| No. of feeders station | 68 PCS |
| Components | LED 3014/3020/3528/5050 and resistor, capacitors, bridge rectifiers. |
| Feeding way | Electric feeder with double motor |

More details

- 1, ETON tech adjustable mounting machine placement head, can be mounting a variety of different materials.
- 2, Flexibly adjust the distance between feeder station.
- 3, Unique design components leaking detection and individual component refill function.

ETON Company

A leading manufacturer of automatic high - speed pick and place machine

The largest high - tech LED light making machine manufacturer in China

Obtained a number of intellectual property technologies , including 9 invention patents , 112 practical patents , 12 software copyrights

ETON Industrial Park

There is 50000 square meters modern intelligent Industrial parks , equipped with an advanced processing and manufacturing center

There are various types of machines , the fastest capacity reach 250000CPH, which is the fastest machine mounting speed in the world

ETON Team

High service efficiency , there is service office in India .

Quality First , Client - oriented , Continuous Improvement .

24 hours online for you to answer

Cooperative customers

As a leading brand of global high-speed mounting machine manufacturer, ETON has an absolute leading market share in the LED industry. Its products are exported to more than 20 countries and regions, including South Korea, India, Vietnam, Tunisia, Egypt, Türkiye, etc.

FAQ

1. do you provide engineers service?

Yes, of course. We have local engineers and office in India, Egypt etc, Who can provide free training, debug and installation door to door timely.

2. How long is the warranty period ?

Provide one year warranty period shall be replaced free of charge when All parts damaged

3. Is the cost of feeders being included the machine cost?

Feeders need to be purchased separately according to the size of the components, which is not included in the price of the machine.

4. Do you provide personal customization?

Yes, of course. contact the sales specialist to customize the equipment for you.

5. How about the software ?

Our software is R&D independently by ourselves.
