

## Electronic products machinery high speed led smd pick and place machine for Neon strip light making

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC, CE, SIRA, RoHS, ISO
- Model Number: T9-2S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum wooden case
- Delivery Time: 15 working days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- Application: For Any Length Low/high Voltage, Neon Flexible Strip Light
- No. Of Heads: 136pcs
- No. Of Feeder Station: 136pcs
- Optimal Speed: 500000cph
- No. Of Camera: 10 Sets
- PCB Size: 250(±10)mm\* Any Length

## Product Description

### Electronic products machinery high speed led smd pick and place machine for Neon strip light making

#### Machine details

Name: ETON No-wire Strip Light Pick And Place Machine  
 Brand:ETON  
 Model: T9-2S  
 Specification:SMT PICK AND PLACE MACHINE  
 Condition:original  
 Quality:top quality  
 Stock:large  
 Payment:T/T before shipment  
 Shipment:on-time shipment  
 Warranty: 1 year  
 Delivery:By sea, by land, by air, etc. according to your requirments  
 Package:wooden case.

#### Features:

1. It is suitable for 5M to infinitely long flexible light strips and light strips. The machine with double rail+ four groups of placement head, and each group has 17 suction nozzles.
2. The machine is driven by high-end magnetic linear motor+ imported servo motor, with high precision and fast speed.
3. Low maintenance cost and simple operation. Operators only need to undergo simple training to start production.
4. The machine adopts intelligent electric feeder with double motor for feeding.

#### Pick and place machine specification

Dimension	3454*3035*1777mm
PCB size	250(±10)mm* any length
PCB thickness	0.1-0.5mm
Mounting way	Group picking and group placing
Mounting mode	Double rail+four groups of placement heads
Mounting height	Less or equal 5mm
No. Of head	136pcs
No. Of feeder station	136pcs
Optimal speed	500000cph
Power consumption	9.6kw
PCB clamping	Vacuum adsorption, cylinder clamping, track width adjustable
Feature of camera	Vision alignment+ mark correction

# T9-2S Value series mounter

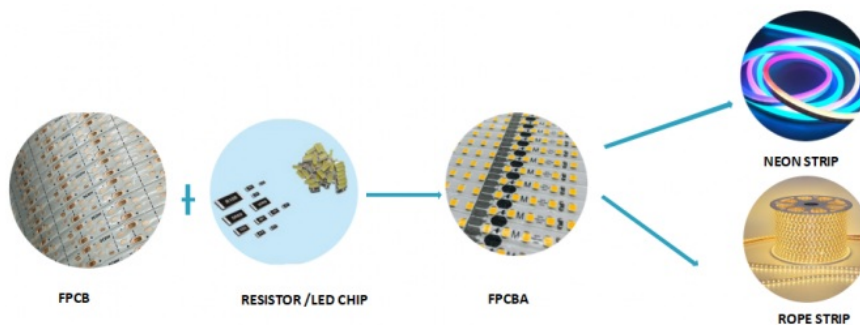

Module

Feeder station

Double rail

Nozzles

## Why choose us?

ETON is China Top and well-known brand manufacturer in SMT High-speed pick and place machine. With the 52000 square meter industry park.

With more than 15 years of experience in smt machine research and development, with over 136 property rights patents.

We can provide you whole smt line solution and equipment according to your requirements.

In India, Egypt, Vietnam, Turkey, Pakistan, we have offices services and showroom. Can provide in time services.

If you buy our machine, we'll arrange our overseas or Chinese engineer to your factory to start installation, debugging and training, and this is for free.

Outside the warranty period, we provide one or two free door-to-door service for engineer.

## FAQ

Q1: Does your company provide complete smt lines ,printer +pick&place + reflow oven ?

A1 : yes , our company can provide complete smt line machine , printer and pick and place machine and reflow oven.

Q2.: What is the max sizes board/pcb can the machine work for ?

A3 : We have many model machine, according to your products we'll provide you suitable machine.

Q3: Can your machine work for led drivers and other electronics ?

A4: Yes, our universal mounter can work for smd pcb for led drivers and also can work for battery charges , mobile display ,e-cigarette control device ,appliance control board etc .

Q4: How is your after-sales services ?

A5: ETON have more than 15 years experiences on machines after-sales services ,we have engineer for overseas installation and training services in India, Egypt, Turkey, Vietnam, etc

Q5: Is this machine easy for operation ? i afraid i can not run it well by myself .

A6: It does not matter, we can train you step by step until you get it and can independently production smooth.
