

50wCPH High Speed LED Pick And Place Machine 136 Heads For Strip

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: T9-2S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

Product Specification

- Warranty: 1 Year
- Name: SMT Pick And Place Machine
- Power Supply: 380AC 50HZ
- Condition: New
- Weight: 3100kg
- Mounting Speed: 500000
- Dimension: 3454*3035*1777mm
- Feeders: 136
- Pcb Thickness: 0.1-0.5mm
- Highlight: **Pick And Place Machine 136 Heads, 50w CPH LED Pick And Place Machine, Strip SMT Chip Mounting Machine CCC**

Product Description

Product Description

The T9-2S is ETON latest dual track, dual system, ultra high-speed mounting machine for producing LED lead-free soft lamps. It is equipped with a high-speed integrated adjustable mounting head independently developed by ETON, and supports belt mounted LED, 3014, 3020, 2835, 5050, or resistors, capacitors, bridges, etc. Under optimal conditions, the production capacity can reach 500000 CPH.

Feature

ETON tech adjustable mounting machine placement head: Component picking position can be adjusted according to PCB pad pitch, min 6.5mm. Apply to LED, 3014, 3020, 2835, 5050, resistor, capacitor, bridge rectifiers etc. Wide component range.

Ultra high speed capacity: The mounting machine placement head adopt the method of two times picking and once placing. The placement time greatly minimized with the improved placement way, excellent optimum capacity reach 500000 CPH.

Unique design components leaking detection and individual component refill function: recognition camera record the components leaking position of PCB, and fill the missing component accordingly, realize industry 4.0 unmanned workshop.

Main parameter

Product name	Mounting machine
Model	T9-2S
PCB size(mm)	Max:250(±10)*any length
PCB thickness	0.5-1.5mm
Mounting component height	5 mm
Mounting precision	± 0.05 mm
No.of camera	10PCS
No.of nozzles	136 PCS
No.of feeders station	136 PCS
Components	LED 3014/3020/3528/5050 and resistor, capacitors, bridge rectifiers.
Feeding way	Intelligent electric feeder with double motor
X,Y,Z Axis drive way	High-end magnetic linear motor servo motor

Application

Mounting machine T9-2S is mainly used for the production of soft light strips, and for the production of soft light strips of any length at ultra high speed, such as 0.5 meters, 1 meter, 5 meters, 10 meters, 50 meters, 100 meters, and 500 meters.

SMT line

Our company provides a complete mounting machine SMT wiring scheme, which can be adjusted according to your actual needs.

T9-2S semi-automatic line

T9-2S automatically line

Company

Shenzhen Eton Automation Equipment co., LTD. is a professional manufacturer of pick and place machine. Our company independently research, development, design and manufacture a set of high -speed good quality SMT pick and place machine. Eton also has its own industrial park in Jiangxi. We are a powerful company with our own R & D production and sales. And we received a number of patents issued by the state certificate and support. Nowadays, we have served many factories and enjoyed good reputation.

FQA

What are the terms of payment?

A: FOB Shenzhen is OK.

How to pay after buying the product?

A: For payment, we only support T/T at present. If you choose T/T, you will have to pay 30% deposit, and the remaining amount will be paid before shipment.

How long is the product warranty period?

A: Effective within one year after installation.
