#### FAQ

##### Do you have any customers in India? How many machines are there in India?

Yes, we have many big clients in India, such as RK, SURYA, FIEM, CALCOM, POLYCRB, etc. We have sold over a hundred machines to India and we go to the exhibition every year.

##### Can I visit the production site of your machines in India?

I have to ask my clients. After all, this is our customer's factory, we can't make decisions for my clients. I think that you wouldn't want your competitors to visit your manufacturing site, please understand.

##### Does the price include the spare parts(feeder and nozzle)?

Different clients has different requirements on spare parts, it is not fair to the clients to add in equivalent price for spare parts. So we don't add the spare parts cost on price, and price is only for machine.

##### What is your machines quality?

We have our own industrial park. There are production centre and R&D centre and quality inspection centre to guarantee the machines quality.

#### HT-F9 SMT PRODUCTION LINE WORKSHOP

Client: Indian client

City: Delhi

Product: LED Flexible strip

The client was in other LED lights before, and then they planned to produce flexible light strips. The market prospect is very optimistic. ETON helped the client to plan the LED strip light production line, including the patch production line: semi-automatic printing machine-conveyor-high-speed pick and place machine - conveyor - reflow oven, and also planned welding machine, sub-board line, rolling machine for client 5M strip light prodcution.

The client put into production in 2021, and the production situation is very good. ETON technicians installed the machine in the client's factory, planned the wiring, tested the production, and trained the client's engineers.

The client's project was very successful, becoming one of the few manufacturer in India that can provide 5M strip light. The

factory for the production of all flexible light strips is very competitive, and now is planning add a new SMT production line with ETON to expand production and LED product categories. For roll to roll strip light.
