## SMT mounter hot selling SMD led light making machine high quality

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-F9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Condition: 100% Original, Brand-new
- Mounting Speed: 40000 CPH
- Feeders: 28
- Application: 1.2m Rigid Pcb And 1m FPCB
- Local Service: India, Egypt, Vietnam

## Product Description

**pick and place machine SMT hot selling SMD led light making machine high quality**

### Company quality principle

- Company five level management policy:sincere business,focus on R&D,manufacturing intentions,considerate service,customer trust
- ETON mission:professional,excellent technology,sharing the results
- ETON goal:to create a national brand,build international Chinese enterprises
- ETON's purpose:to create value for customers,creating benefits for society
- ETON vision:determined to become the world's most competitive manufacturer and service provider of pick and place machine and high-end electronic testing equipment.

### Technical Parameter

Dimension	Length	2700mm
	Width	2300mm
	Height	1550mm
	Total weight	1700kg
PCB	Length Width	Max:1200*330mm Min:100*100mm
	Thickness	0.5-5mm
	Clamping	Adjustable pressure pneumatic
	Mounting mode	Group to take and group to mount.
Vision system	No.of camera	5 PCS
	Feature of camera	Vision alignment,MARK correction
	Mounting precision	±0.02mm
	Mounting height	≤5mm
	Mounting speed	200000-250000CPH
	Feeder station	68 PCS
	Nozzles	68 PCS
	components	LED3017,3020,3528,5050 and resistor,capacitor,bridge rectifiers.

### Introducing machine

Performance introduction	
High precision	With a new visual recognition system, five imported cameras, visual alignment, Mark correction technology. Combined with optical positioning method, accurately identify the position of PCB board and quickly and accurately mount components.
High speed	Producing with 2~4 types of materials with high capacity ,available for board with any proportion of LED chip and resistors. Four mounting modules , 17 nozzles for each mounting part, part A or B can be mounted separatly or synchronously. The high speed reach 25W CHP,It saves a lot of time, space and manpower cost.
Good durability	Using High Stability Electronic Dual Motor The wear resistance of screw rod is not easy to deviate and has high accuracy. The guide rail has strong bearing capacity and high stability. High-quality hardware configuration for 24-hour machine operation.

### Application production&component

The mahcine mainly mounting linear produce,such as tubes, flexible strips, panel lights, display screens,etc.

### Company Profile

Shenzhen ETON Automation Equipment Co.,LTD. is a leading manufacturer of automatic high-speed pick and place machine focusing on High efficiency Low consumption.And we have our own industrial park, which can further standardize and streamline the production process.

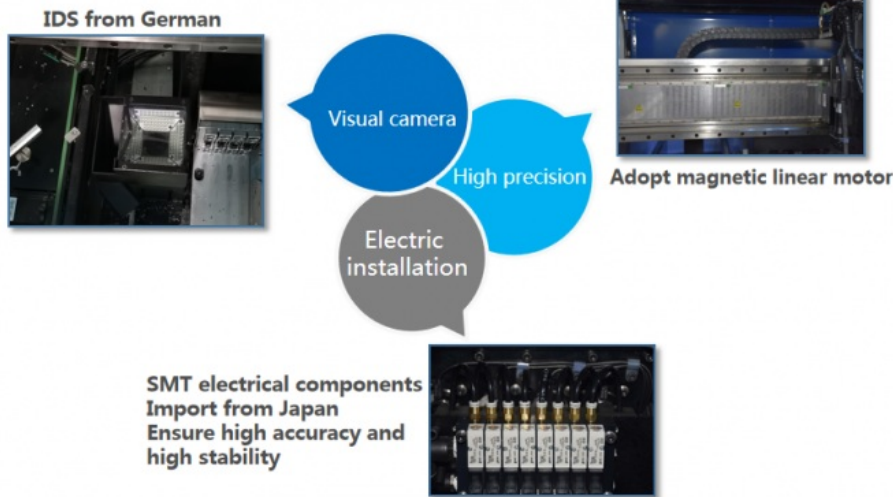

#### Honor client

ETON with more than 10 years experience in SMT LED manufacturer are our partners in China.

## Part of our customers

#### Some details of the machine

#### Remark

The delivery period is within four weeks after receiving the deposit  
 Term of payment:30% depositing on the date of signing contract,70% payment before delivery.  
 Quotation in valid:30 days

#### About our services

- ⊕Professional solutions:provide professional SMT full line solution
- ⊕Warranty:1 year warranty factory service
- ⊕Free Installation:one-site free installation to ensure smooth production
- ⊕Free technical training:professional training of operating and maintenance
- ⊕Technical support:24 house online support
- ⊕Software Upgrade:offer free software upgrade whole lifetime.

#### Package and delivery

- ⊕Standard export vacuum waterproof package
- ⊕Strong wooden package for ensure safely delivery of heavy and large equipment
- ⊕Delivery:By air,sea and railway.

#### Advantages of SMT:

High assembly density, small size and light weight of electronic products  
 High reliability, strong vibration resistance, low solder joint defects  
 Easy to realize automation and improve production efficiency

#### FAQ

##### What are the main LED products our machines for?

There are different machines in our company and different machines apply to different LED lights. The main products we can apply:bulb tube strip lamp panel. Down light,streetlight,ceiling light.wall washer light and so on.

##### Do our machines only for LED lights?

No,our machines apply to not only LED light but also other products.

##### What components do our machines apply to?

Our machines can patch LED 3014/30202/2835/5050/5630/5730 etc.. capacitors, resistors,IC.shaped components and so on.

##### Why do we adopt the smart electronic feeders?

Our machines adopt the smart electronic feeders which are more stable.universal and intelligent. The feeding speed of electronic feeder is faster than the traditional pneumatic feeder.It can avoid the cost and drop of materials effectively.
