

All LED Soft PCBA Board Splitting Machine High Cutting Quality

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE,CCC,SIRA,ISO
- Model Number: ET-580
- Minimum Order Quantity: 1 set
- Packaging Details: Packing in film package and foam cotton, and covering vacuum bag within sturdy wooden boxes.
- Delivery Time: 30 working days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Dimension: 1100*660*1000 L*W*H
- Condition: New
- Compatible PCB Material: All LED Soft Strip PCB
- Max. Length Of PCB: No Limited
- Power Consumption: 120w
- Power Source: 220V,50-60HZ
- Weight: 100KG
- Highlight: **LED PCBA Splitting Machine, soft LED strip Splitting Machine, LED Lights Splitting Machine**

Product Description

High cutting quality all LED soft PCBA board splitting machine

Specification :

Customized cutting mold according to real PCB which can ensure accuracy.

Humanization design which make it easy to operate and use

Special blade which will not break PCB and Chips

Famous brand motor which can give enough power to ensure the speed.

Description :

The finished PCB cutting edge is smooth and flat

The cutting process is very stable as using special blade to ensure the high cutting quality.

Can be compatible to automatic working line which will increase the production efficiency

Original importing famous brand material can ensure the cutting quality and long life-span.

Automatic splitting machine-ET-580

Technical data:

Item	Specification
Name	LED soft strip PCB splitting machine
Item No.	ET-580
Max. length of PCB	No Limited
PCB feeding speed	adjustable,max. 300mm/s
Compatible PCB material	all LED soft strip PCB
Power consumption	120w
Power source	220V,50-60HZ
Weight	100KG
Dimension	1100*660*1000(L*W*H)

Certificates

As an experienced manufacturer in SMT machine, we obtained a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights, with our won R&D department for production and inspection. And also earned the oversea certificates as CE, CCC, SIRA, etc.

Our Certification

ETON

9 Invention Patents

12 Software Patents

112 Practical Patents

Packages

Step 1: Wrap with stretch film to prevent the equipment from.

Step 2: Vacuum paper packaging and moisture-proof bag, so that the machine can be kept dry during transportation to prevent moisture.

Step 3: Use straps and triangular wood to fix the machine to prevent damage to the machine during transportation.

Step 4: Each exported machine will be equipped with sturdy export wooden boxes, to ensure that the delivered product is good.

Steep 1: Film packing and foam cotton prevent the dust and water to preprotect the machine;

Steep 2: Vacuum package and moisture proof bag, to keep dry of the machine during transportation;

Steep 3: Equip with sturdy wooden box and transported by trucks to the specific port.
