ETON SMT Mounting Machine HT-E8S-1200 For Linear Bulb, Electric Board, Driving Making

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Condition: New, 100% Original, Brand-new
- Weight: 1700kg
- Mounting Speed: 45000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly, SMT Mounting Machine, SMD, LED
- Pcb Thickness: 0.5-5 Mm
- Tape Width: 24mm, 8mm, 12mm
- Highlight: **SMT Mounting Machine For Electric Boards ,
SMT Mounting Machine For Driving Making ,
SMT Mounter Machine For Linear Bulb**

Product Description

DOB LED Making Machine 45000CPH pick and place machine

Product introduce

HT-E8S-1200 is a machine designed and produced by ETON with an optimum production capacity of 45000 CPH. This machine can mount large special-shaped components, such as lens, equipped with flight identification camera and Mark camera. It is suitable for mounting linear bulb, electric board ,driving, etc.

Product detail

Parameter

Product name	pick and place machine
Model	HT-E8S-1200
Length(mm)	2550
Width(mm)	1650
Height(mm)	1550
Total weight(kg)	1700
Mounting speed	45000 CPH

Our advantages

Rich experience in SMT Industry Line. ETON set up more than 15 years, we are leading manufacturer of SMT machine in China. Our machines are of better quality, more accurate and faster to mount. We also have our own exclusive patented technology such as dual motor electronic Feeder feeding system, flight identification visual alignment, group picking and group placing and so on. Introduction of anti-static facilities in SMT production line

The electrostatic protection during the PCBA processing operation of the SMT production line is a systematic project. The SMT processing plant should first establish and check the basic anti-static projects, such as ground wires, floor mats and platform integration, and environmental anti-static king projects. Because once the equipment enters the workshop, if it is found that the environment does not meet the requirements and re-rectification, it will bring a lot of trouble. After the basic engineering of the smt patch processing production line is completed, if it is a dedicated site for long-term products, anti-static equipment should be configured according to the anti-static requirements of long-term products. It is forbidden to directly use wooden floors or lay wool, chemical fiber floors and ordinary floor leather in the anti-static area in the production line of the anti-static work area. The ground composed of electrostatic conductor materials should be selected, such as anti-static raised floors or fortification on ordinary ground. Static floor mats and effectively grounded.

Service

Company five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust. "no worries" after sale service concept: the pearl River Delta region to arrive within 4 hours, day to solve; Guangdong Province 24 hours. Visit customers regularly and gather information. Provide latest information about technology and equipment.

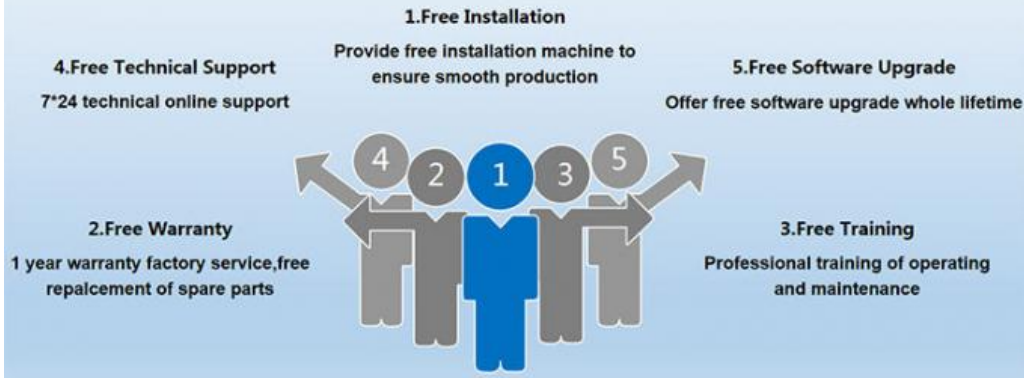

High service efficiency, there is service office in India. Besides India, we also have local engineers in Egypt, Turkey. Can provide you with timely services.

Chinese engineers provide online services. If necessary, Chinese engineers will come to your factory for free install and training.

Quality First, Client-oriented, Continuous Improvement.

24 hours online for you to answer.

ETON after-sales service

Exhibition

ETON Exhibition

ETON is committed to building an international brand, dominated by SMT machines, to show the world the technological strength of our brand, and to show the quality of our machines on a global scale. In the past, we have participated in many LED lighting exhibitions and professional equipment exhibitions in India, Vietnam, Thailand, Turkey, Egypt and other countries.

ETON is a very strong and powerful company. We attend many exhibitions every year. Not only in China, India Delhi, Indian Mumbai, Pakistan Karachi, Turkey Istanbul, Egypt Cairo, Russia Moscow, Vietnam Hanoi etc. We occurred 85% percent in China LED lighting markets, but also send machines to India, Korea, UK, Russia, Egypt, Turkey, Vietnam, Japan, Australia, Poland, etc more than 30 countries. Working with ETON is guaranteed, let's light up your business!

FAQ

Can you provide a whole line solution?

Yes , we can. We can supply SMT line and some LED production lines.

Can we customize the machine?

Of course, all of our machine can be customize.

Do you have oversea after sale service?

Yes, we can provide technical support abroad. If you have any technical problems, our engineers will provide you with timely support. Abroad, we have India, Turkey and Egypt office and local engineer, etc.

This is the first time I use this kind of machine, is it easy to operate?

It is easy to operate, the language of the machine is English, and we will teach you the basic operation. If you still have any questions, please contact us by e-mail, wechat, phone, Skype,Whatsapp or other contact information.

How long the delivery?

About 30 days.
