LED 3014/3020/3528/5050 Mounting 250000 CPH SMT Machine 68PCS Head Pick Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Application: SMT Mounting Shooter Machine, SMT Production Line, for SMT Machine
- Condition: New, 100% Original, Brand-new
- Mounting Speed: 250000 CPH
- Usage: 100m Strip Making Machine
- Feeders: 68
- Highlight: LED Mounting SMT Machine, 5050 Mounting SMT Machine, 68PCS Head Pick Place Machine

Product Description

250000 CPH SMT Machine 68PCS Head Dual Arm pick and place machine

Product Description and Advantages:

- 1.It has 68PCS head and the mounting speed can reach 250000CPH.
- 2.The maximum PCB size is 1200*330mm.
- 3.Calibration automatically, high precision,available for RGB.
- 4.Group to take and group to mount
5. It can produce tube, LED flexible strip, display, panel light etc.
6. Mounting components: LED 3014/3020/3528/5050 and capacitors, resistors, bridge rectifiers.

Specification

Power	380AC 50 HZ
Power Consumption	6kw
Operating Environment	23 ±3
Conveyor Transmission	Max Length :1200 mm
Transmission Speed	>500 mm/sec
Transmission Direction	Single(left→ right or right→ left)

Company Introduction

In 2020, ETON Jiangxi Industrial Park was successfully completed, equipped with an advanced processing and manufacturing center, strict quality control, and standardize production, streamline production processes. ETON advanced technology and innovation drives the revolution of market rapidly, and obtains a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights, moreover, ETON has invented the fastest automatic pick and place machine with speed 170000 CPH, which save much labors and space of production, got large market share in USA, KOREA, INDIA, GERMANY, EGYPT, TURKEY, VIETNAM, TUNISIA, THAILAND more than 30 counties.

Advantage

Efficient team: The best suggestions of full SMT lineequipment according to your budget and site.

Competitive price: We are directly manufacture of the ETON pick and place machine, so we can give you the best competitive price with high quality materials.

High quality: We have strictly quality control during allproduction from raw materials to the finished machine.

High efficiency: Allmachines parts are made byourselves, so it" s convenient to control the timeschedule and quality timely.

Service

1. Maintenance period: 1 year
2. Provide free online training and remote guidance
3. Overseas and local engineer and office provide free installation and training door-to-door
4. Software is R&D independently by ETON, provide free upgrade whole lifetime
5. Make regular return visits to collect customer information and provide customers with the latest production technology and equipment information regularly

Certificates

ETON obtains a number of intellectual property technologies, including 9 invention patents, 112 Practical patents, 12 software copyrights. ETON is rated as "Shenzhen high-tech enterprise", "Guangdong high-tech enterprise", "China high-tech enterprise", "Shenzhen TOP Brand", "2015 LED Technology Innovation Award", "The 4th China LED First Innovation Award", "Industry Special Contribution Award" etc.

The advantages of SMT patches are as follows:

1. Small size and light weight
The volume and weight of SMT components are only about 1/10 of those of traditional plug-in components, which is convenient for mounting. Generally, after SMT chip processing, the volume of electronic products can be reduced by 40% to 60%, while the weight can also be reduced by 60% to 80%.
2. Increased efficiency and reduced costs
SMT patch processing is easy to achieve automation, improve production efficiency, save materials, energy, equipment, manpower, time, etc., and reduce costs by 30% to 50%.
3. High reliability and strong seismic resistance
4. Good high-frequency characteristics, reducing electromagnetic and radio frequency interference
5. Low solder joint defect rate
6. High mounting density

FAQ

Q1:Do you provide software updates?

For customers who buy our machine, we can offer free upgraded software for you.

Q2:Does our machine need air supply?

Yes, machine needs air supply.

Q3:This is the first time I use this kind of machine, is it easy to operate? We have English user manual and guide video to teach you how to use the machine.And also we'll arranger our overseas engineers to your factory for free installation and training.

Q4:How about the warranty? Provide one year warranty period. Outside the warranty period, we will have 1-2 free door-to-door services every year

Q5:How can I buy machine from you?

(1)Consult us on line or by e-mail;

(2)Negotiate and confirm the final price, shipping, payment method and other terms; (3)Send you the proforma invoice and confirm your order;

(4)Make the payment according to the method put on proforma invoice;

(5)We prepare your order in terms of the proforma invoice after confirming your full payment . And 100% quality check before shipping; (6)Send your order via express or by air or by sea.
