Product Description

Automatic welding equipment for LED soft light strip plate production

Description

Product Brief:

ET-800 LED Soft light strip plate Welding machine is a dedicated automatic welding equipment for 5 meter LED strip welding, according to the characteristics of LED equipment 5 meters depth of humanization design, engaged in a variety of different solder joints instead of manual soldering work, solve the manual welding of weld solder joint is not uniform, and other phenomena, and compatible with a variety of types of LED soft strip size of welding, simple operation and high practicability, quality stability, greatly enhance the efficiency.

Product advantages:

Simple programming, operation control box mobile head position.

Welding speed, high efficiency, a solder machine can save 5-6 people

Save tin wire, good consistency of solder joint

High power heating controller ensures the stability of continuous welding

The utility model relates to a double head fine tuning welding gun structure, which is convenient for regulating the welding torch spacing and synchronous operation

Multi axis manipulator, advanced motion control algorithm, to improve the kinematic positioning accuracy and repeatability accuracy

According to the professional design of the lamp batten, it is convenient for manual feeding and feeding

Production efficiency: 1800-2000 meters /H.

It can replace the manual process and optimize the quality control.

Improve efficiency, save manpower, simple operation, new staff can achieve the welding effect of skilled workers
