Flexible Strips LED Mounting Machine 250000 CPH For LED Lighting Mass Production

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Application: SMT Mounting Shooter Machine, SMT Production Line, for SMT Machine
- Condition: New, 100% Original, Brand-new
- Mounting Speed: 250000 CPH
- Usage: 100m Strip Making Machine
- Feeders: 68
- Highlight: Flexible Strips LED Mounting Machine, LED Mounting Machine 250000 CPH, LED Mounting Machine For LED Lighting

Product Description

250000 CPH SMT Machine 68PCS Head Dual Arm pick and place machine

Product Description and Advantages

Producing with Producing 4 types materials at the same time with high capacity, available for 5M, 50M or any length of Flexible strip and Roll to roll.

Dual arm four modul, 17 nozzles for each mounting part, part A or part B can be mounted separately or synchronously. Calibration automatically, high precision, available for RGB.

Exclusive patent technology: Group to pick and group to mount.

Specification

Power	380AC 50 HZ
Power Consumption	6kw
Operating Environment	23°C±3°C
Conveyor Transmission	Max Length :1200 mm
Mounting Speed	250000CPH
Transmission Direction	Single(left→ right or right→ left)

SMT pick and place machine

Model:T9

Appliance: No wire LED strip roll to roll strip

Ideal mounting speed: 250000CPH

68 nozzles and 68 feeders

Mounting precision:±0.02mm

Nozzles

Guide rail

Head

Into the board track

Application: A placement machine specializing in the production of a roll of infinitely long non-wire flexible light strips

Semi-automatic production line layout

PCB Loader 1000mm

Semi-auto stencil printer 1600mm

1.5m The buffer stage 2000mm

LED pick and place machine HT-T9 3100mm

3M belt line 3000mm

6M belt line 6000mm

6M belt line 6000mm

6M belt line 6000mm

3M belt line 3000mm

8 zones reflow oven 400mm width 5000mm

PCB Unloader 1000mm

Company Introduction

Service

We can provide you with excellent service, we also have professional overseas engineers to your factory provide install, training service until you can operate the machine adroitly.

1. We can provide you with the whole production line.
2. Our software is R&D independently. We can offer software upgrade for lifetime for free
3. We have 50,000 square meters of industrial park. The production strength is abundant, occupies the first place in the domestic profession.
4. If you have any problem with the product, we will have overseas engineers come to your home for free repair or replacement within one year. Because we have offices overseas and local engineers.

Certificates

ETON obtains a number of intellectual property technologies, including 9 invention patents, 112 Practical patents, 12 software copyrights. ETON is rated as "Shenzhen high-tech enterprise" "Guangdong high-tech enterprise" "China high-tech enterprise" "Shenzhen TOP Brand" "2015 LED Technology Innovation Award" "The 4th China LED First Innovation Award" "Industry Special Contribution Award" etc.

About flexible strip

A soft strip is a special process for soldering a light onto a copper wire or ribbon-shaped flexible circuit board, and then connecting it to a power source to emit light.

Features and advantages

- 1.hard, like a walkie-talkie can curl.
- 2.It can be sheared and deducted.
- 3.the light bulb and access is completely covered in flexible plastic, insulation, waterproof function is good, use insurance.
- 4.Weather resistant.
- 5.not easy to break, long service life.
- 6.easy to create graphics, text and other modeling; The present has been extensively used to decorate and illuminate buildings, bridges, paths, gardens, courtyards, strata, false ceilings, furniture, buses, lakes, underwater, posters, pink signs, signs, etc.

FAQ

Q:Can you support whole SMT line?

A:Yes, we can provide whole line solution if you want. We are very professional on SMT field.

Q:What is your machines quality?

A:We have our own industrial park. There are production centre and R&D centre and quality inspector centre to guarantee the machines quality.

Q:How many hours does the machine can operate per day?

A: Machine can work whole day. But for longer using life, we suggest you to have 1 hour or 2 hours off per day.

Q: Is the machines easy to operate?

A: Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company,so we know how to make it intelligent and operate friendly.
