

9W CPH LED Chip Mounter SMT Mounting Pick And Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-E8D-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0402
- Name: SMT Pick And Place Machine
- Condition: New, 100% Original, Brand-new
- Product Name: Place Machine\ LED Mounter\ LED Assembly Machine
- Mounting Speed: 90000 CPH
- Usage: Circuit Board Assembly, SMT Mounting Machine, SMD, LED
- Feeders: 48
- Tape Width: 24mm, 8mm, 12mm
- Highlight: SMT Mounting LED Chip Mounter, 9W CPH LED Chip Mounter, SMT Mounting LED Chip Mounter

Product Description

ETON SMT placemant machine With 90000CPH for led DOB making chip mounter

Machine introduction

HT-E8D is a dual system,dual module multifunctional mounter to produce two different products at the same time,it can mount the component range from 0402 to 15mm.and e8d has two guide rail, and each rail can produce a product,and the one side is wrong,the other side will continue.E8D-1200 is suitable for the largest PCB board size of 1200 * 300mm,mini size 100*100mm.with a production capacity of 90000 CPH. for the E8 series model,we can provide customized service ,according to your size of your PCB size make the proper machine for your products. in order to service our customers better.

HT-E8D of Technical Parameter

Dimension	3150*2250*1650mm
PCB Size	Max: 1200*300mm Min: 100*100mm
PCB Thickness	0.5~5mm
Mounting mode	Group picking and separately placing,separately picking and separately placing
Mounting precision	±0.04mm
Mounting height	<15mm (Automatic changing)
Mounting speed	90000 CPH
No.of camera	4 sets Vision for the flight identification, Mark correction
Components space	0.2mm
No.of feeders station	48 PCS
No.of head	24 PCS

SMT Line

Advantage

Efficient team: The best suggestions of full SMT lineequipment according to your budget and site.

Competitive price: We are directly manufacture of the ETON pick and place machine, so we can give you the best competitive price with high quality materials.

High quality: We have strictly quality control during allproduction from raw materials to the finished machine.

High efficiency: Allmachines parts are made byourselves, so it" s convenient to control the timeschedule and quality timely.

SHENZHEN Office

ETON Industrial Park

50,000 square meters

7 buildings

300 employees

assembly line

CNC workshop

Production line Exhibition hall

Shipping and Delivery

Land transportation: suitable for inland countries and it is affordable;

Air freight: for urgent good, and it is the most expensive transportation way;

Shipping: It's suitable for heavy goods, and the convenience and lower cost of shipping which is easy for clients to accept the arrival time of the goods.

Exhibition

ETON has participated in many exhibitions of foreign countries , such as India Mumbai Exhibition, India Delhi Exhibition, Egypt Exhibition, Turkey Exhibition, Pakistan Exhibition, etc and trading with more than 20 countries. Furthermore, we have took part in our domestic large exhibition, like Guangzhou Guangya Exhibition, Shanghai Munich Exhibition, Chongqing LED light Exhibition, etc.

FAQ

1. Is engineer free for machine install ?

A: Yes, we will sent engineer to your factory for machine free install and training once you buy our machine.

2. Is your machine suitable for manufacturing LED Bulb/Panel light/Lens/Display/Flexible strip light/etc?

A: Yes, SMT Machine is widely applied to all kinds of led lighting and electrical board. Suitable for mounting/printing led chip3014/3528/5050/etc,0402/0603/0805 resistor, capacitor, transformer, bridge, etc

3.Do you have led chip mounter machine?

A: Yes, ETON as the largest manufacturer of SMT Machine in China. We own more than 50000 square meters industry park in Jiangxi city, China. Set office in Shenzhen, Zhongshan, Zhejiang, India, Egypt, etc. We provide fellow machines:

1. High-speed pick and place machine for led lighting
 2. Multifunctional pick and place machine for all kinds of lighting and electrical board
 3. Automatic Stencil Printer machine
 4. Semi-automatic Stencil Printer machine
 5. Single conveyor machine
 6. Double rail conveyor machine
 7. Vibrator plate for lens/transformer/Capacitor/etc
 8. 8mm/12mm/16mm/24mm electrical feeder
 9. Eight zones reflow oven
 10. PCB cleaning machine
 11. Solder paste mixer
 12. Loader machine
 13. Unloader machine
 14. Whole SMT Line solution
- Etc.....

Notes for smt industry using reflow soldering machine control program:

1. SMT reflow soldering should only be performed by licensed operators, technicians, engineers or other trained personnel.
2. The operator is not allowed to change the original parameters of each machine at will. The technicians in the SMT workshop of the production department can change some parameters according to different products, but before changing, they need to seek the consent of the SMT workshop engineer and make corresponding records.
3. Before starting SMT reflow soldering, confirm whether the power supply and origin of the machine can work normally.
4. When SMT reflow soldering is running, do not put your hands and feet in the safety cover.
5. During the operation or adjustment of SMT reflow soldering, two or more people are not allowed to operate the same machine.
7. In production, when the PCB is transported on the mesh belt or rail of the SMT reflow oven, the setting data and switches cannot be adjusted.
