

Electric Feeder Double Motor Feeding Way SMT Mounting Machine for LED Production

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-F9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0805,0603,1206
- Name: SMT Pick And Place Machine
- Application: SMT Production Line
- Condition: New,100% Original,Brand-new
- Mounting Speed: 250000 CPH
- Type: Automatic
- Usage: SMT Mounting Machine,LED
- Highlight: **Double Motor SMT Mounting Machine, Electric Feeder SMT Mounting Machine, LED Production SMT Mounting Machine**

Product Description

High efficiency Full-automatic 250000 CPH pick and place machine for Led tube/strip /panel lamp

The advantages of HT-F9 led tube light making machine

1. HT-F9, which has 68 heads, two mounting module, each mounting module has 34 heads;
2. HT-F9, which has 68 PCS of feeder station, adopt electric feeder with double motor feeding way
3. HT-F9, which Adopts group picking and group placing mounting mode, achieve high mounting speed;
4. HT-F9, which has used the high-end magnetic linear motor and servo motor, stepper motor to ensure the mounting speed and mounting precision
5. HT-F9, which has produced 4 types materials at the same time, for the Optimum mounting speed, it can reach 250000 CPH.

Machine parameter

Model	HT-F9
Dimension(L*W*H)	2700*2300*1550mm
Weight	1700kg
PCB length width	Max:1200*330mm;Min:100*100mm
PCB thickness	0.5~5mm
Mounting precision	±0.02mm
Mounting mode	Group to take and group to mount
Mounting height	≤5mm
Mounting speed	250000 CPH
Power consumption	6KW
No. Of feeders station	68 PCS
No. Of head	68 PCS

SMT production line

For production line:including semi-automatic stencil printer, pick and place machine, conveyor and reflow oven.

the total length of HT-F9 pick and place machine is about 12.1 meter.

Company information

	Shenzhen high-tech enterprise		2015 LED Tech Innovation Aware
	The 4th China Innovation Aware		China high-tech enterprise
	Shenzhen TOP Brand		Double soft enterprise

INDUSTRIAL PARK

We have our own industrial park, equipped with an advanced processing and manufacturing center, strict quality control, and standardized production, streamlining production processes. There is the fastest machine in the world, with a capacity reaching 50W CPH.

50000 SQM Industrial Park

Shipping and Delivery

Using three steps to install and pack the machine with the international standard :

The first step: to pack the machine with foam cotton and stretch film to protect the outside of the machine

The second step: use the Vacuum packaging, put the desiccant in a vacuum bag to prevent moisture, use straps to secure the machine

The third step: use the professional wooden box packaging

land transportation, air transportation and sea transportation are permitted according to customers' needs.

Professional and standard packaging

Step one: Pack the machine with foam cotton and stretch film to protect the outside of the machine

Step two: Vacuum packaging Vacuum packaging; put the desiccant in a vacuum bag to prevent moisture; use straps to secure the machine;

step three: professional wooden box packaging

Related machine

We can provide you a whole SMT line solution and equipment, you can look this picture, we have semi-auto/full-automatic stencil printer, glue dispenser(this machine is mainly for making led lens), conveyor, reflow oven, etc.

We can meet your any demands for equipment, and pursue quality higher than price for machine manufacturing

ETON Automation Equipment Co., Ltd.

- ✓ High precision
- ✓ High capacity
- ✓ High quality

- ✓ Stencil printer
- ✓ Pick and palce machine
- ✓ Conveyor
- ✓ Reflow oven

The advertisement features a collection of industrial machines from ETON Automation Equipment Co., Ltd. The machines are arranged in a circular pattern, connected by a network of white dots and lines. The machines include a large stencil printer at the top left, a smaller stencil printer below it, a pick and place machine in the center, a conveyor system on the right, and a long reflow oven at the bottom right. The background is a dark blue gradient with a subtle grid pattern.

Certificates

As an experienced manufacturer in SMT machine, we obtained a number of intellectual property technologies, including 9 invention patents, 112 practical patents, 12 software copyrights, with our won R&D department for production and inspection. And also earned the oversea certificates as CE, CCC, SIRA, etc.

CERTIFICATE OF APPRECIATION

Service

1. SMT workshop supervisor arranges workshop plan

The supervisor of the SMT chip processing production workshop needs to arrange the workshop plan reasonably according to the weekly and monthly plans of the PMC department, combined with the material supply, and assign it to the elongation and technicians of each line in the workshop.

2. Check and confirm the production data

According to the production plan issued by the team leader and technicians, make preparations in advance, check whether there is a stencil, whether the serial number is printed, and determine the BOM list, placement machine program, production process, etc. in advance.

FAQ

1. What can we do ?

We can provide SMT machine, SMT peripheral equipment and whole SMT line solution

2. what can you buy from us?

SMT Pick And Place Machine,PCB Loader Machine,Reflow Oven,AOI,PCB Conveyor

3. Do you provide software updates?

For customers who buy our machine, we can offer free upgraded software for you.

4. This is the first time I use this kind of machine, is it easy to operate?

Yes. There are guide video that show you how to use machine.We also provide overseas on-site service.
