High-Speed SMT Mounting Machine for LED Light Production Line

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 SET
- Packaging Details: wooden case,
- Delivery Time: 20 working days
- Payment Terms: T/T
- Supply Ability: 50 set per month

Product Specification

- Warranty: 1 Year
- Name: SMT Pick And Place Machine
- Application: SMD Production Line, SMT Production Line, for SMT Machine
- Condition: New, 100% Original, Brand-new
- Weight: 1700kg
- Mounting Speed: 250000 CPH
- Type: Automatic
- Usage: SMT Mounting Machine, LED
- Feeders: 68

Product Description

Machine details

High capacity	<ul style="list-style-type: none"> High-speed magnetic linear motor pick and place machine in led light SMT production line Two mounting module,17 nozzles pasted on the PCB board at the same time,maximum mounting speed 250000 CPH
High precision	<ul style="list-style-type: none"> Automatically fills components to missing coordinates MARK visual correction system Magnetic linear motor and servo motor,using Israeli technology,ensure the accuracy of X,Y and Z axis
Power functions	<ul style="list-style-type: none"> Component:LED,capacitors,resistors,IC,shaped components,etc. Application:LED light,like flexible strip,tube,panel light.
Operation&maintenance	<ul style="list-style-type: none"> Chinese and English graphical interface,easy to operate Free software upgrades for life,can be saved and edited files,arbitrary call Easy maintenance:easy maintenance,low cost of replacement parts,low maintenance cost.

Machine parameters

length	3100mm
Width	2300mm
Height	1550mm
Total Weight	1700kg
PCB Length Width	250mm*any length
PCB Thickness	0.5-1.5mm
Mounting Mode	Group picking and separately placing
Mounting Height	≤5mm
Mounting Speed	250000CPH
Components	LED 3014/ 3020/ 3528/ 5050 and capacitors, resistors, bridge rectifiers, etc.
Components Space	0.5mm
No. of Feeders Station	68 PCS
No. of head	68 PCS
Feeding way	Electric feeder with double motor

Description of the product

Producing with Producing 4 types materials at the same time with high capacity, available for 5M, 50M or any length of Flexible strip and Roll to roll.

Dual arm four module, 17 nozzles for each mounting part, part A or part B can be mounted separately or synchronously.

Calibration automatically, high precision, available for RGB.

Exclusive patent technology: Group to pick and group to mount.

T9 is different from other high-speed machines. It is only for 250 * flexible strips of any length

Transportation& Package

• Transportation

By sea

The advantages of sea transportation are convenience, cheapness, and strong carrying capacity

By railway

The advantages of shipping are economical and affordable, with large transportation capacity, which is more suitable for inland countries.

By air

The advantage of air transportation is that it is convenient and fast, which is more suitable for urgent items.

• Package

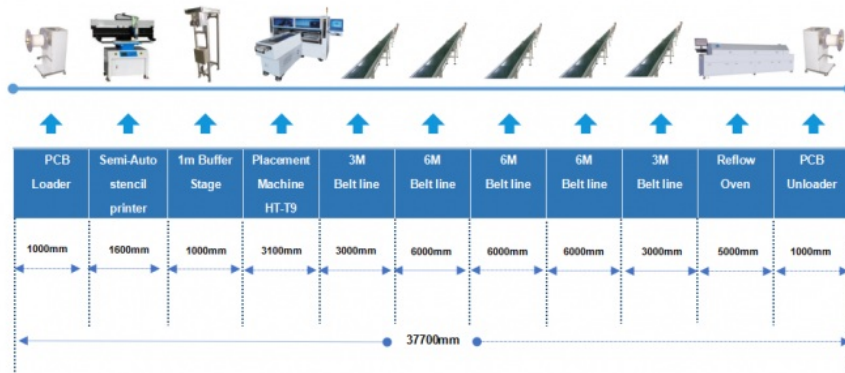

We use vacuum wooden box packaging

A leading manufacturer of automatic high-speed pick and place machine
 The largest high-tech LED light making machine in China
 We have more than 250+ invention patents, practical patents and software copyright
 There is 50000 square meters modern intelligent industrial parks,equipped with an advanced processing and manufacturing center
 There are fastest machine mounting speed in the world,the capacity reach 500000 CPH

25m flexible SMT automatic production line

Our after-sales service

- Maintenance period: 1 year (during the period, any parts need to be repaired and replaced will be free.)
- Software are R&D independently and provide upgrade it for free a lifetime
- We provide free install and training
- Our company has service offices in Turkey and India, which can provide you with the greatest convenience.

Payment, service

- The payment method we usually support is T/T
- The delivery is within 30 days after receiving the deposit!

FAQ

If I have no experience, The machine is easy to use?

Yes, our machine is designed to use easily, usually spend 7 days to learn how to operate. We will arrange engineers to your factory for training and installation for free.

How is the breakdown rate of machine?

Our machine is very stable, the breakdown rate is less than 0.001%.

Is your software interface in English?

English interface and Chinese interface are both available.

Why your price is so high?

Because the quality, accuracy and performance of our machines are relatively good, different but better.
