

SMT Solder Paste Mixer AC 220V Power Supply 1000 rpm Maximum Speed for Mixing

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE,CCC,SIRA,ISO
- Model Number: Solder paste mixer
- Minimum Order Quantity: 1 set
- Packaging Details: Packing in film package and foam cotton, and covering vacuum bag within sturdy wooden boxes.
- Delivery Time: 30 working days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: Solder Paste Mixer
- Application: Solder Paste
- Power Supply: AC 220V 50Hz 60Hz >60W
- Condition: New
- Weight: 35KG
- Fixture Function: Universal Fixture For All Kinds Of Brand Solder Paste Cans
- Highlight: **1000 rpm Solder Paste Mixer, AC 220V Solder Paste Mixer, SMT Solder Paste Mixer**

Product Description

Maximum speed can reach 1000 rpm work efficiency SMT solder paste mixer

The machine features:

Maximum speed can reach 1000 rpm

When stirring, it is necessary to de-ice the solder paste beforehand;

Do not have to open the container;

Power single phase 220v;

No gas problem;

Does not destroy the shape of tin powder;

Fixtures are suitable for all kinds of 500g packaging solder paste cans;

Mixing time can be set arbitrarily;

Has manual speed control function

It can return the solder paste to temperature in a short time and fully stir the solid and liquid components in the solder paste to achieve a completely consistent density. The old and new solder paste can be mixed and stirred, and a more active new solder paste can be obtained, which can be used in the follow-up. Shows good thixotropy in screen printing. The work efficiency and work quality are greatly improved, and the SMT printing process is simplified and standardized. The biggest advantage of closed stirring is the fixed running time and the flexibility of the solder paste (Q property).

Specifications:

Item	Solder paste mixer
Dimension	400x400x420mm
Weight	About 35KG
Operating Voltage	AC 220V 50Hz 60Hz >60W
Operating speed	Motor 1350 RPM revolution: 1000RPM Rotation: 500PRM
Working capacity	500 g. Syringe, red plastic tube, etc. the fixture can be customized.
Stir two cans of solder paste at the same time	500g
Stiring time	1-99 minute digitally adjustable
Operation method	Light touch button for easy operation
Fixture function	Universal fixture for all kinds of brand solder paste cans
Running noise	Low running noise <20dB

Our advantage

ETON aims to create a national brand and build an international Chinese enterprise. It persistently endeavors to manufacture pick-and-place machines that truly belong to the Chinese people. After more than a decade of research and development, ETON has achieved a self-sufficiency rate of over 98% in precision components for pick-and-place machines, including self-developed motors, controls, drives, optical algorithms, databases, etc. It has also established a complete SMT pick-and-place machine industrial chain in its 52,000 square meter industrial park in Jiangxi.

Through continuous technological updates, product improvements, and system enhancements, ETON has achieved a leapfrog development from the first generation to the thirteenth generation of pick-and-place machines. Currently, ETON pick-and-place machines are exported to over 40 countries and regions worldwide, with technological performance comparable to leading international brands, earning deep trust from customers and wide recognition in the market.

Service

Free Installation: provide free installation machine to ensure smooth production

Free Warranty: 1 year warranty factory service, free replacement of space parts

Free Training: Professional training of operating and maintenance

Free Technical Support: 7*24 technical online support

Free Software Upgrade: Offer free software upgrade whole lifetime

High service efficiency, there is service office in India. Besides India, we also have local engineers in Egypt, Turkey. Can provide you with timely services.

Chinese engineers provide online services. If necessary, Chinese engineers will come to your factory for free install and training.

Quality First, Client-oriented, Continuous Improvement.

Certificates

As an experienced manufacturer in SMT machine, we obtained a number of intellectual property technologies, including 9 invention patents, 12 practical patents, 12 software copyrights, with our won R&D department for production and inspection. And also earned the overseas certificates as CE, CCC, SIRA, etc.

Shipping and Delivery

We usually transport the goods to the port in containers and then ship them to the destination. For the transportation of machines, land transportation and air transportation are also possible.

Air freight:

for urgent good, and it is the most expensive transportation way;

Land transportation:

suitable for inland countries and it is affordable;

Noah+8613632769526

Shipping:

It's suitable for heavy goods, and the convenience and lower cost of shipping which is easy for clients to accept the arrival time of the goods.
