High quality Electric Board Making Machine 48000CPH Smt Production Line

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: YT10S
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Applicable Components: 0201
- Name: SMT Pick And Place Machine
- Application: SMD Production Line, SMT Mounting Shooter Machine, SMT Production Line, for SMT Machine
- Power Supply: 220V
- Condition: New, 100% Original, Brand-new
- Weight: 2380kg
- Mounting Speed: 48000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly, SMT Mounting Machine, SMD, LED
- Highlight: **High quality Electric Board Making Machine, 48000CPH Electric Board Making Machine, Electric Board Making Smt Production Line**

Product Description

Introduction

This SMT pick and place machine adopts advanced high-speed placement technology, supports the precise placement of a variety of electronic components, and is suitable for PCB board production, LED lamps, smart home, automotive electronics, communication equipment and other industries. The equipment has the characteristics of high precision, high efficiency and strong stability, which can help your production line to achieve intelligent upgrades and improve production efficiency and product quality.

Technical Parameter

PCB Size	500*450mm
heads	10PCS
Feeder station	52PCS
Components	0201~15MM packaging material and IC material(Optional fixed camera for 0201~35*35MM), Other component size can be customized
X,Y,Z Axis Drive way	High-end magnetic linear motor
Mounting Speed	48000 CPH(Under best condition)

High-precision patch: using advanced visual recognition system, the placement accuracy can reach $\pm 0.01\text{mm}$

High-speed operation: efficient motion control system, improve production speed, support mass production

Strong compatibility: support 0201, 0402, 0603 and other different specifications of components, suitable for all kinds of PCB production

Intelligent control: humanized operation interface, support offline programming, simple and easy to learn

Stable and durable: high-quality components + high-strength structural design to ensure long-term stable operation of the equipment

Full automatic SMT line Solution

In SMT Line, there are automatic stencil printer machine, pick and place machine, reflow oven machine, loader and un-loader machine. Different SMT line design will be little different. Some factory will using one automatic stencil printer machine for different SMT line. ETON will provide the professional suggestion for the line design.

Shenzhen Eton Automation Equipment CO., LTD.

ETON –YT10S Full-Automatic Production Line

Application

				
Bulb PCBA	DOB PCBA	Electric board	Power driver	Home appliance control panel
				
LED bulb	DOB	LED street light	LED spot light	LED Display
				
Panel light	Corn light	LED high bay light	LED down light	Lens products
