## 220AC SMD PICK AND PLACE MACHINE Streamline Production line with 2080kg Capacity

Our Product Introduction

For more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

### Basic Information

- Brand Name: ETON
- Certification: CE,CCC,SIRE
- Model Number: YT10S
- Minimum Order Quantity: 1
- Packaging Details: WOODEN CASE
- Delivery Time: 15 DAYS
- Payment Terms: T/T
- Supply Ability: 50/PER MOUNTH

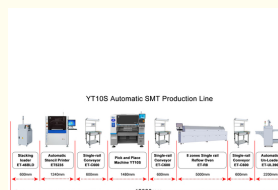

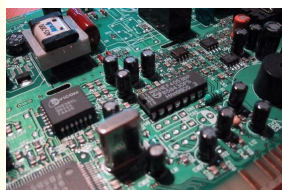

### Product Specification

- Speed: 48000CPH
- Driver Way: Magnetic Linear Motor
- Delivery: 15
- Application: Electronic Manufacturing
- Visual Camera: 3 Sets Camera
- Pcb Max Size: 500\*450mm
- Net Weight: 2080kg
- Mode Of Transportation: Sea/railway/air
- Highlight: 220AC SMD PICK AND PLACE MACHINE,  
2080kg SMD PICK AND PLACE MACHINE,  
SMD PICK AND PLACE Production line

## Product Description

### Product Description:

The SMT Mounting Machine, also known as an SMD PICK AND PLACE MACHINE, is a highly efficient equipment designed for electronic manufacturing processes. It is specifically created to cater to the mounting needs of LED chip mounter applications, ensuring precise and accurate placement of components on circuit boards.

With a remarkable speed of 48000CPH (components per hour), this SMT Mounting Machine significantly boosts production efficiency, allowing for rapid assembly of electronic devices. Its advanced technology and automated capabilities contribute to streamlining the manufacturing process, resulting in higher output rates and improved productivity.

Weighing at 2080kg, this machine strikes a balance between sturdy construction and maneuverability, making it suitable for various production environments. The robust design ensures stability during operation, while its manageable weight facilitates convenient relocation within the manufacturing facility.

Operating at a voltage of 220AC, the SMT Mounting Machine offers compatibility with standard power supplies, ensuring easy integration into existing production setups. This voltage requirement aligns with common industrial power systems, eliminating the need for additional modifications or power sources.

Equipped with 3 sets of visual cameras, this machine enhances precision and accuracy during the component placement process. The visual cameras provide real-time monitoring and feedback, enabling operators to verify and adjust component positions as needed, ensuring optimal placement quality.

### Features:

Product Name: SMT Mounting Machine

Applicable Components: 0201, 0402, 0805, 0603, 1206, SOP

Pcb Max Size: 500\*450mm

Visual Camera: 3 Sets Camera

Driver Way: Magnetic Linear Motor

Net Weight: 2080kg

### Applications:

Eton YT10S SMT Mounting Machine is a cutting-edge equipment designed for electronic manufacturing processes. With its high speed of 48000CPH, this machine is ideal for various application occasions and scenarios within the industry. Whether you are producing LED light bulbs, LED strips, or any other electronic components, the Eton YT10S is a reliable choice for your production needs.

The Eton YT10S SMT Mounting Machine operates using a Magnetic Linear Motor driver way, providing precision and efficiency in component placement. It is suitable for a wide range of components including 0201, 0402, 0805, 0603, 1206, and SOP packages, making it versatile for various production needs.

## HT-E8D Series Application Products

### Packing and Shipping:

Product Packaging and Shipping:

The SMT Mounting Machine is carefully packaged in a sturdy cardboard box to ensure safe delivery. Inside the box, the machine is securely wrapped in protective materials to prevent any damage during transit.

For shipping, we use reputable courier services to deliver the product to your doorstep. The package will be tracked to provide you with real-time updates on the delivery status.

## FAQ:

**Q: What is the brand name of the SMT Mounting Machine?**

A: The brand name of the SMT Mounting Machine is ETON.

**Q: What is the model number of the SMT Mounting Machine?**

A: The model number of the SMT Mounting Machine is YT10S.

**Q: Where is the SMT Mounting Machine manufactured?**

A: The SMT Mounting Machine is manufactured in China.

**Q: What certifications does the SMT Mounting Machine have?**

A: The SMT Mounting Machine is certified with CE, CCC, and SIRE.

**Q: What are the packaging details for the SMT Mounting Machine?**

A: The packaging details for the SMT Mounting Machine include wooden case.
