Electronic Manufacturing SMT Machine Magnetic Linear Motor Driver Way for Smooth Production

Our Product Introduction

more products please visit us on smtmountingmachine.com

Basic Information

- Brand Name: ETON
- Certification: CE,CCC,SIRE
- Model Number: YT10S
- Minimum Order Quantity: 1
- Packaging Details: WOODEN CASE
- Delivery Time: 15 DAYS
- Payment Terms: T/T
- Supply Ability: 50/PER MOUNTH

Product Specification

- Net Weight: 2080kg
- Pcb Max Size: 500*450mm
- Speed: 48000CPH
- Driver Way: Magnetic Linear Motor
- Application: Electronic Manufacturing
- Voltage: 220AC
- Delivery: 15 Days
- Highlight: **Smooth Production SMT Machine,**
Magnetic Linear Motor Driver SMT Machine,
Electronic Manufacturing SMT Machine

Product Description

Product Description:

The SMD Pick and Place Machine is an essential piece of equipment for manufacturers in the LED light making industry. This advanced SMT mounting machine offers unparalleled speed and precision, making it the ideal choice for high-volume production environments. With a speed of 48000CPH (components per hour), this SMT pick and place machine ensures efficient and rapid assembly of PCBs. The machine's impressive delivery rate of 15 allows for quick turnaround times, maximizing productivity and output.

Equipped with a state-of-the-art Magnetic Linear Motor driver way, this machine offers superior accuracy and reliability in component placement. The magnetic linear motor technology ensures smooth and precise operation, resulting in high-quality assembly work.

Featuring 3 sets of cameras, including visual cameras, this SMT mounting machine provides advanced vision capabilities for precise component alignment. The visual cameras enable accurate inspection and placement of components, ensuring optimal soldering and connectivity on PCBs.

With a maximum PCB size of 500*450mm, this machine accommodates a wide range of board sizes, making it versatile and suitable for various LED light making applications. Whether working on small or large PCBs, this SMT pick and place machine delivers consistent performance and accuracy.

In conclusion, the SMD Pick and Place Machine is a top-of-the-line solution for manufacturers in the LED light making industry. Its exceptional speed, precision, and advanced features make it a valuable asset for high-volume production environments. Invest in this SMT pick and place machine to streamline your assembly process, increase efficiency, and achieve superior results in LED light manufacturing.

Features:

SMT Mounting Machine Features:

Product Name: SMT Mounting Machine

Pcb Max Size: 500*450mm

Net Weight: 2080kg

Application: Electronic Manufacturing

Driver Way: Magnetic Linear Motor

Voltage: 220AC

Applications:

Eton YT10S SMT Mounting Machine is a top-of-the-line product designed for electronic manufacturing applications. With its brand name ETON and model number YT10S, this machine is a reliable and efficient solution for LED light making, SMT pick and place, and SMD pick and place processes.

Manufactured in China, this machine is certified with CE, CCC, and SIRE certifications, ensuring high quality and safety standards. The minimum order quantity for the Eton YT10S is 1, and it is packaged securely in a wooden case for transportation.

The delivery time for this product is 15 days, and payment terms are accepted via T/T. With a supply ability of 50 units per month, customers can rely on a consistent availability of this machine for their production needs.

Operating at a voltage of 220AC, the Eton YT10S SMT Mounting Machine has a speed of 48000CPH, making it a highly efficient and productive tool for electronic manufacturing. It is suitable for a wide range of components including 0201, 0402, 0805, 0603, 1206, and SOP.

Equipped with a Magnetic Linear Motor driver way, this machine offers precise and accurate component placement, ensuring high-quality results in electronic assembly. Whether you are manufacturing LED lights or working on SMT assembly projects, the Eton YT10S is a versatile and reliable choice for your production needs.

HT-E8D Series Application Products

Packing and Shipping:

Product Packaging:

The SMT Mounting Machine is carefully packaged to ensure safe delivery. It is wrapped in protective foam and placed in a sturdy cardboard box to prevent any damage during transportation.

Shipping:

We offer reliable shipping services to ensure your SMT Mounting Machine reaches you in a timely manner. Our team will securely pack the product and arrange for swift delivery to your specified address.

ETON GROUP

ABOUT US

Shenzhen ETON Automation Equipment Co., Ltd. was founded in 2011. ETON is the leading manufacturer of global optoelectronic highspeed pick and place machine, Full SMT line. the products are exported to more than 20 countries and regions, including South Korea, India, Vietnam, Tunisia, Egypt, Turkey, Russia, Brazil etc.

FAQ:

Q: What is the brand name of this SMT Mounting Machine?

A: The brand name of this SMT Mounting Machine is ETON.

Q: What is the model number of this SMT Mounting Machine?

A: The model number of this SMT Mounting Machine is YT10S.

Q: Where is this SMT Mounting Machine manufactured?

A: This SMT Mounting Machine is manufactured in China.

Q: What certifications does this SMT Mounting Machine have?

A: This SMT Mounting Machine is certified with CE, CCC, and SIRE.

Q: What are the packaging details for this SMT Mounting Machine?

A: The packaging details for this SMT Mounting Machine include wooden case.

Q: What is the minimum order quantity for this SMT Mounting Machine?

A: The minimum order quantity for this SMT Mounting Machine is 1.

Q: What is the delivery time for this SMT Mounting Machine?

A: The delivery time for this SMT Mounting Machine is 15 days.

Q: What are the payment terms for this SMT Mounting Machine?

A: The payment terms for this SMT Mounting Machine are T/T.

Q: What is the supply ability of this SMT Mounting Machine?

A: The supply ability of this SMT Mounting Machine is 50 per month.
