

## PCB Thickness 0.5-5mm High Precision Motor SMT Mounter for LED Industry

### Our Product Introduction

For more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: ETON
- Certification: CE, SIRA, CCC, ISO
- Model Number: HT-E6T-600
- Minimum Order Quantity: 1 UNIT
- Price: USD10000~43000USD per Unit
- Packaging Details: Standard export wooden case package (Can do as customers' requirement)
- Delivery Time: Within 15 days after receive the downpayment
- Payment Terms: T/T, L/C, Western Union, MoneyGram, D/P
- Supply Ability: 30 UNIT per month

#### Product Specification

- FAQ - Machine Operation: Operating System Supports English And Chinese Interface Display, Easy To Understand And Operate
- FAQ - Transportation Modes: Flexible Modes Including Water, Land, And Air Transport
- Advantage - Intelligent: Automatic Recognition Of Compensation Optimization, And Non-stop Refueling Function
- Application: Power Driver, Electric Board, Lens, Linear Bulb, Household Application Etc.
- FAQ - Delivery Date: Goods Delivered After 30 Days' Deposit
- Advantage - Low Failure Rate: The Feeding Method Adopts Dual-motor Electronic Feeder, Independent Control Is More Precise.
- PCB Thickness: 0.5-5mm

## Product Description

### Product Description:

The SMT Mounting Machine is a high precision machine designed for efficient and accurate component placement in Surface Mount Technology (SMT) processes. It offers a wide range of advantages that make it a valuable asset in various industries.

**Advantage - Wide application:** The mounting technology used in this machine includes group picking and splitting, making it suitable for the mounting of a variety of products. Whether you need to work with flexible light strips, panel lights, lenses, display screens, bulbs, tubes, and more, this machine can handle the task effectively.

**Advantage - Intelligent:** One of the standout features of this machine is its intelligent capabilities. It is equipped with automatic recognition of compensation optimization, ensuring precise placements every time. Additionally, the non-stop refueling function enhances operational efficiency and minimizes downtime.

**Installation speed:** The SMT Mounting Machine boasts an impressive installation speed of 45000cph (components per hour), enabling quick and efficient production processes.

**PCB length width high:** With dimensions of 2550mm x 1650mm x 1550mm, this machine can accommodate various PCB sizes, providing flexibility in production requirements.

When considering why to choose this high precision machine for your component placement needs, it's important to note that we are a leading SMT supplier in China. Our expertise and dedication to innovation have positioned us as a top player in the industry. In the LED market, we hold the absolute leading position, making us a trusted partner for businesses seeking reliable Surface Mount Technology equipment.

### Features:

#### SMT Mounting Machine Features:

Quality service: Free installation and training by engineers, service office in India with Indian engineers in Delhi and Mumbai, one-year standard warranty with free repair and replacement of parts

PCB length width high: 2550mmx1650mmx1550mm

FAQ - Transportation modes: Flexible modes including water, land, and air transport

FAQ - Why choose us: Leading SMT supplier in China; In the LED industry market share in the absolute leading position

PCB thickness: 0.5-5mm

### Technical Parameters:

<b>PCB Manufacturing System</b>	PCB length width high: 2550mmx1650mmx1550mm
<b>Automated PCB Assembly Equipment</b>	Installation speed: 45000cph Mounting components: LED, capacitors, resistors, IC, shaped components, etc. Installation accuracy: $\pm 0.04$ mm
<b>high precision motor</b>	FAQ - Machine operation: Operating system supports English and Chinese interface display, easy to understand and operate FAQ - Delivery date: Goods delivered after 30 days' deposit FAQ - Transportation modes: Flexible modes including water, land, and air transport FAQ - Why choose us: Leading SMT supplier in China; In the LED industry market share in the absolute leading position Advantage - Wide application: Mounting technology is group picking and splitting, splitting and splitting, which is suitable for the mounting of a variety of products, such as: flexible light strips, panel lights, lenses, display screens, bulbs, tubes, etc. Quality service: Free installation and training by engineers, service office in India with Indian engineers in Delhi and Mumbai, one-year standard warranty with free repair and replacement of parts

### Applications:

Eton SMT Mounting Machine Model HT-E6T-600 is a versatile and efficient equipment used in a variety of product application occasions and scenarios. This Surface Mounting System is perfect for industries requiring precise and high-speed component placement, such as LED manufacturing, electronics assembly, and PCB production.

With certifications including CE, SIRA, CCC, and ISO, you can trust the quality and reliability of the Eton SMT Mounting Machine. Originating from Shenzhen, China, this machine offers exceptional performance while meeting international standards.

Whether you need to mount LED components, capacitors, resistors, ICs, or shaped components, the HT-E6T-600 can handle a wide range of mounting tasks with precision and efficiency.

One of the key advantages of this Solder Paste Printer is its intelligent features. It comes equipped with automatic recognition of compensation optimization and a non-stop refueling function, ensuring continuous and accurate operation.

Operating the machine is a breeze thanks to its user-friendly interface, which supports both English and Chinese display. This makes it easy for operators to understand and navigate the system, leading to enhanced productivity.

When it comes to delivery, Eton guarantees a quick turnaround time. With a supply ability of 30 units per month, you can rest assured that your order will be processed promptly. The machine is typically delivered within 15 days after receiving the downpayment, ensuring

minimal downtime for your operations.

For customers looking to purchase the HT-E6T-600, the minimum order quantity is just 1 unit, with prices ranging from USD10000 to USD43000 per unit. Various payment terms are accepted, including T/T, L/C, Western Union, MoneyGram, and D/P, providing flexibility for buyers.

Additionally, the machine is packaged securely in standard export wooden cases, although custom packaging options are available to meet specific requirements.

With Eton's reputation as a leading SMT supplier in China and its dominant market share in the LED industry, choosing the HT-E6T-600 SMT Mounting Machine is a smart investment for businesses seeking top-quality equipment.

## Support and Services:

Our Product Technical Support and Services for the SMT Mounting Machine include: -----

- Installation and setup assistance
- Training for machine operation and maintenance
- Troubleshooting guidance for any issues
- Software updates and upgrades
- Replacement parts and repair services
- Remote technical support for quick assistance

## Packing and Shipping:

Product Packaging: -----

The SMT Mounting Machine is securely packaged in a sturdy cardboard box with ample protective padding to ensure safe transportation.

Shipping Information:

Once your order is processed, the SMT Mounting Machine will be carefully packed and shipped via a reputable courier service. You will receive a tracking number to monitor the status of your delivery.

## FAQ:

**Q1: What is the brand name of the SMT Mounting Machine?** -----

A1: The brand name of the SMT Mounting Machine is ETON.

**Q2: Where is the SMT Mounting Machine manufactured?**

A2: The SMT Mounting Machine is manufactured in Shenzhen, China.

**Q3: What certifications does the SMT Mounting Machine have?**

A3: The SMT Mounting Machine is certified with CE, SIRA, CCC, and ISO.

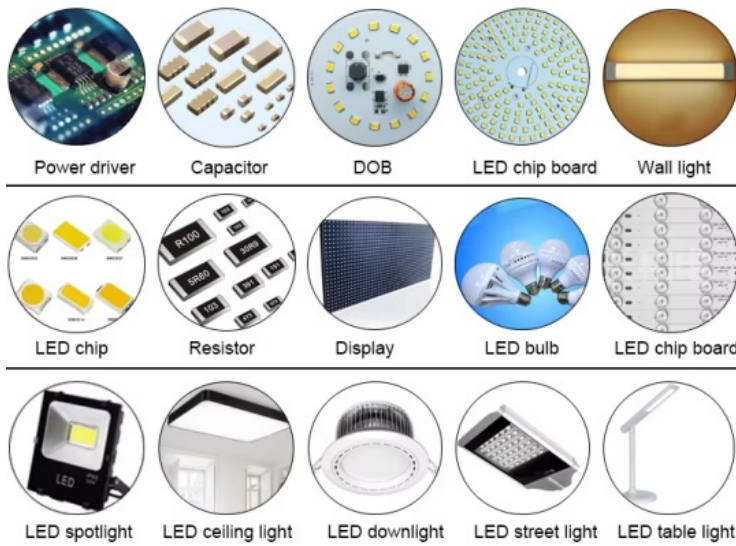

**Q4: What are the accepted payment terms for purchasing the SMT Mounting Machine?**

A4: The accepted payment terms for purchasing the SMT Mounting Machine are T/T, L/C, Western Union, MoneyGram, and D/P.

**Q5: What is the minimum order quantity for the SMT Mounting Machine?**

A5: The minimum order quantity for the SMT Mounting Machine is 1 unit.

**Shenzhen Eton Automation Equipment Co., Ltd.**
