

2-4 type of material professional highspeed pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: Guangdong China
- Brand Name: ETON
- Certification: 3CSIRACE
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum packaging wooden box packaging
- Delivery Time: within 2 weeks
- Payment Terms: T/T
- Supply Ability: 50 units a month

Product Specification

- Highlight: highspeed pick and place machine, professional pick and place machine

Product Description

product description

Dual-purpose professional high-speed attaching machine, 2 ~ 4 type capacity of 150000-180000CPH. Visual alignment, mark correction.

Components: LED 3014/3020/3528/5050 and capacitors, resistors, bridge rectifier, etc.

Applications: Flexible belt, LED tube, panel light, display screen, etc.

Specification

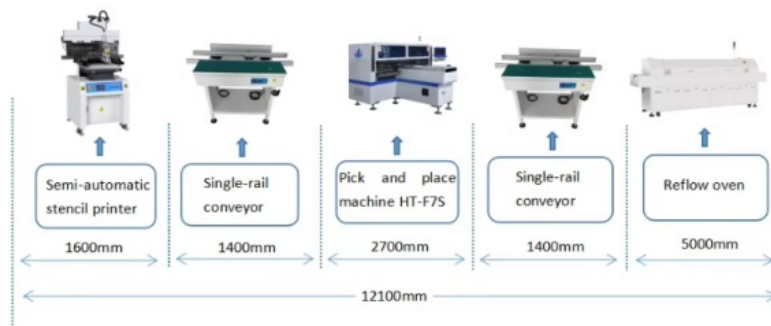

Machine advantage

High capacity	Suitable for 0.6m, 0.9m, 1.2m rigid PCB and 0.5m, 1m LED hard board and LED soft strip. Produced in 2 ~ 4 types High capacity materials can be used in circuit boards with any proportion of LED chips and resistors.
High precision	Two mounting modules, 17 nozzles per mounting section, part A or B can be installed separately or simultaneously.
exclusive	Exclusive patented technology: group pack.

SMT Line

Customer project

Market

Our client

Our equipment is exported to more than 30 countries and regions, such as South Korea, Turkey, Egypt, India, Russia, the United States, Brazil, Tunisia, Poland, Lithuania, South Africa, Iran, Pakistan, Saudi Arabia, Uzbekistan, Nigeria, Germany, etc

FAQ

1. How about machine installation and training?

After purchasing our machine, before the machine arrives at the factory, we will check in advance that the pre-installation preparations are in place. If everything is ready, we will arrange for an engineer to come to your home for free installation and training.

2. Is it hard to use your machines because they look big?

No, it's easy to operate, just like you would with a cell phone.

People with SMT operation experience can usually operate independently within 3-5 working days;

People operating SMT machines for the first time can usually operate independently within 8-10 working days

3. Do you have quality certification for your machines?

Yes, of course. Our machines are CE, CCC, SIRA, ISO certified and have their own patents.

4. How long is your machine guaranteed?

Usually one year, during the warranty period, any parts need to be repaired or replaced free of charge.

We also have a technical group for you, if you have any questions in this group, you can share with us directly

Machine operation, we will help you in time, this group will live forever.

5. How many languages is your machine available?

Chinese and English are currently used.

We are also designing more languages to help customers use our machines more easily.
