0.4-0.6MPa SMT Mounting Machine 1930mm×2320mm×1650mm Power Supply 220AC 50Hz

Our Product Introduction

more products please visit us on smtmountingmachine.com

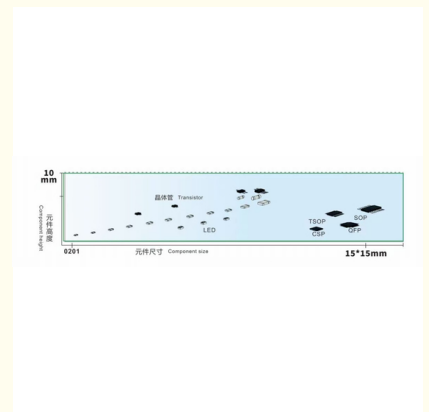

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: ETON
- Certification: CE, SIRA, CCC, ISO
- Model Number: HT-E6T-600
- Minimum Order Quantity: 1 UNIT
- Price: USD10000~43000USD per Unit
- Packaging Details: Standard export wooden case package (Can do as customers' requirement)
- Delivery Time: Within 15 days after receive the downpayment
- Payment Terms: T/T, L/C, Western Union, MoneyGram, D/P
- Supply Ability: 30 UNIT per month

Product Specification

- Control System: Independently Developed Operating System (Windows 7 Platform)
- Modular Placement Heads: Allows For Flexible Line And Various Production Modes
- Transmission System Structure: Four Gantries, Four Rail, Can Mount Different Products At The Same Time
- Export Markets: More Than 30 Countries And Regions
- Maximum Chip Height: ≤10mm
- Minimum PCB Board Size: 50*50mm
- Packaging System: Combination Of Wooden Case Packing, Vacuum Packing, And Carton Packing
- Pre-shipment Inspection System: All Goods Tested And Inspected Before Shipment With Record Checking Videos And Photos

Product Description

Product Description:

When it comes to packaging, the SMT Mounting Machine ensures the safety and protection of the equipment during transportation. The packaging system includes a combination of wooden case packing, vacuum packing, and carton packing, providing multiple layers of security to prevent any damage during transit.

One of the standout features of the SMT Mounting Machine is its advanced control system. Equipped with an independently developed operating system based on the Windows 7 platform, this machine offers a user-friendly interface for seamless operation and precise control over the mounting process.

Prior to shipment, every unit undergoes a rigorous pre-shipment inspection process to ensure optimal performance and quality. All goods are thoroughly tested and inspected, with record checking videos and photos provided to guarantee that each machine meets the highest standards before reaching the customer.

Operating within a pressure range of 0.4-0.6MPa, the SMT Mounting Machine delivers consistent and reliable performance for demanding electronic assembly tasks. Whether you are working on small-scale projects or large-scale production runs, this machine is built to handle the pressure and deliver exceptional results.

Overall, the SMT Mounting Machine stands out as a reliable and efficient solution for SMT component mounting systems. With its precise component span, robust packaging system, advanced control system, thorough pre-shipment inspection process, and optimal pressure range, this machine is a versatile and dependable choice for electronic assembly applications.

Features:

Product Name: SMT Mounting Machine

Transmission System Structure: Four Gantries, four rail, can mount different products at the same time

Optional IC Cabinet: Flexible production

Control System: Independently developed operating system (Windows 7 platform)

Packaging System: Combination of wooden case packing, vacuum packing, and carton packing

Power Supply: 220AC 50Hz, power 3KW

Technical Parameters:

Technical Parameter	Value
Minimum PCB Board Size	50*50mm
Pressure	0.4-0.6MPa
Product Name	200000cph High-speed mult integrated machine
Total Weight	3400kg
Dimensions	1930mm×2320mm×1650mm
Control System	Independently developed operating system (Windows 7 platform)
Number of Feeders	104PCS
Maximum PCB Board Size	500*350mm
Export Markets	More than 30 countries and regions
Maximum Chip Height	≤10mm

Applications:

The ETON HT-E6T-600 SMT Mounting Machine is a versatile and efficient piece of equipment designed for a wide range of Product Application Occasions and Scenarios.

1. SMT Pick and Place Machine: The HT-E6T-600 is perfect for use in electronics manufacturing plants where surface mount components need to be accurately placed on PCBs. With its 40PCS nozzles and support for components with a span as small as 0.5mm, it ensures precise and reliable placement.

2. Surface Mount Device Mounting Machine: This machine excels in scenarios where quick and accurate placement of SMD components is crucial. Its modular placement heads allow for flexible production modes, making it suitable for various assembly line setups.

3. SMT Assembly Machine: The HT-E6T-600 is ideal for SMT assembly tasks in industries such as consumer electronics, automotive, telecommunications, and more. Its high accuracy and efficiency make it a valuable asset in any production environment.

With certifications including CE, SIRA, CCC, and ISO, you can trust the quality and safety standards of the ETON SMT Mounting Machine. Originating from Shenzhen, China, this machine offers a reliable performance backed by rigorous testing and quality control processes.

Whether you need to place a small order or purchase in bulk, the minimum order quantity of 1 UNIT and a supply ability of 30 UNIT per month cater to businesses of all scales. The price range of USD10000 to 43000 per unit offers a cost-effective solution for your production needs.

Accepted payment terms such as T/T, L/C, Western Union, MoneyGram, and D/P provide flexibility in completing your transactions.

Additionally, the quick delivery time of within 15 days after receiving the downpayment ensures minimal downtime and efficient production planning.

Packaged in standard export wooden cases (with customization options available), the dimensions of 1930mm×2320mm×1650mm make transportation and setup hassle-free. The power supply requirements of 220AC 50Hz and 3KW enable seamless integration into your existing production setup.

Support and Services:

The Product Technical Support and Services for the SMT Mounting Machine include:

- Initial setup assistance
- Training for operators and maintenance staff
- Troubleshooting support for hardware and software issues
- Regular maintenance services
- Software updates and upgrades
- Spare parts availability and ordering

Packing and Shipping:

Product Packaging:

The SMT Mounting Machine is carefully packaged in a sturdy cardboard box with ample padding to ensure safe transportation. Each component is securely placed to prevent any damage during shipping. The packaging is designed to withstand handling and delivery processes to reach you in perfect condition.

Shipping:

Once your order is confirmed, the SMT Mounting Machine will be shipped using a reliable courier service. You will receive a tracking number to monitor the progress of your delivery. The package will be delivered to your specified address within the estimated timeframe, and you can expect it to arrive safely and on time.

FAQ:

Q: What is the brand name of the SMT Mounting Machine?

A: The brand name of the SMT Mounting Machine is ETON.

Q: What is the model number of the SMT Mounting Machine?

A: The model number of the SMT Mounting Machine is HT-E6T-600.

Q: What certifications does the SMT Mounting Machine have?

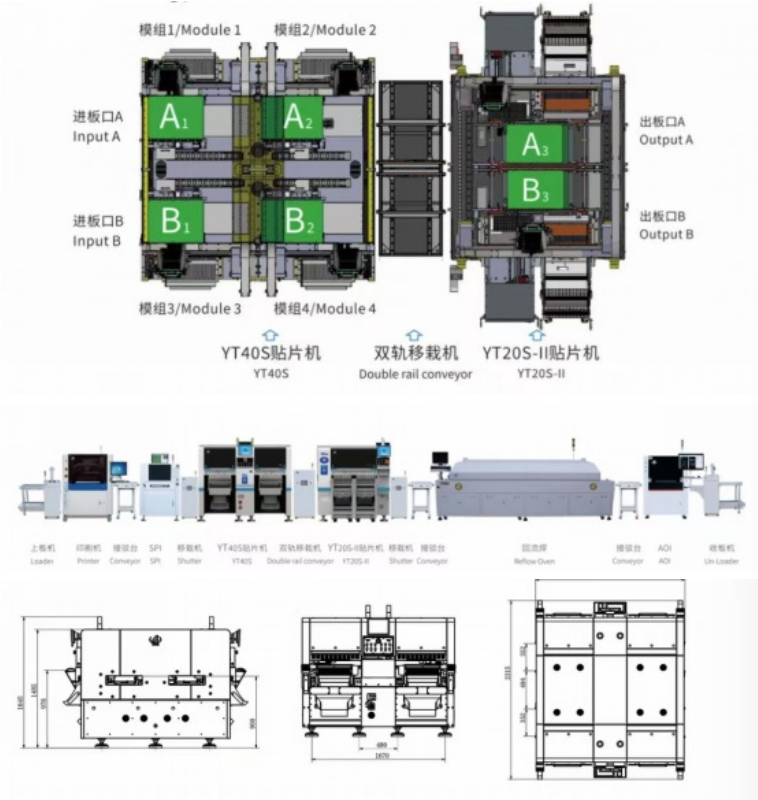

A: The SMT Mounting Machine is certified with CE, SIRA, CCC, and ISO.

Q: What is the minimum order quantity for the SMT Mounting Machine?

A: The minimum order quantity for the SMT Mounting Machine is 1 UNIT.

Q: What are the payment terms accepted for purchasing the SMT Mounting Machine?

A: The accepted payment terms for purchasing the SMT Mounting Machine are T/T, L/C, Western Union, MoneyGram, and D/P.
