Easy Operation Pick and Place Machine with 48 PCS Feeder Station Hundreds Sold in India

Our Product Introduction

For more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: ETON
- Certification: CE, SIRA, CCC, ISO
- Model Number: HT-E6T-600
- Minimum Order Quantity: 1 UNIT
- Price: USD10000~43000USD per Unit
- Packaging Details: Standard export wooden case package (Can do as customers' requirement)
- Delivery Time: Within 15 days after receive the downpayment
- Payment Terms: T/T, L/C, Western Union, MoneyGram, D/P
- Supply Ability: 30 UNIT per month

Product Specification

- Product Name: Multifunctional High Performance Pick And Place Machine
- Product Category: SMT Mounting Machine
- Company Profile: Shenzhen Eaton Automation Equipment Co., LTD. Is A Leading Manufacturer Focusing On 'high Efficiency And Low Consumption' Automatic High Speed Take-and-place Machine, With Strong Design, Research And Development, Manufacturing, Sales And Service.
- FAQ 4: Offers Entire SMT Production Line Including Reflux Furnaces, Template Printers, Conveyors, Take&place Machines, Loaders, Unloaders, Etc.
- FAQ 2: Machines Are Easy To Operate With A Few Days Of Training, No Experience Required.

Product Description

Product Description:

The SMT Mounting Machine is a high-speed pick and place machine designed to streamline the PCB assembly process. With dimensions of 3150mm x 2250mm x 1650mm, this machine is capable of handling PCBs of varying sizes, making it versatile for a wide range of production needs.

Featuring a feeder station with 48 PCS capacity, the SMT Mounting Machine ensures efficient and continuous operation without frequent interruptions for reloading components. This high-capacity feeder station contributes to the overall productivity of the machine, making it ideal for large-scale manufacturing.

One of the standout features of the SMT Mounting Machine is its capability to produce LED bulbs. This functionality opens up new possibilities for manufacturers looking to diversify their product offerings or specialize in LED lighting technology. With the ability to handle LED components seamlessly, this machine provides a competitive edge in the market.

Equipped with 24 PCS nozzles, the SMT Mounting Machine offers precision placement of components on PCBs, ensuring accuracy and reliability in the assembly process. The nozzle configuration allows for efficient operation and minimizes the risk of errors, leading to high-quality finished products.

Moreover, the SMT Mounting Machine is part of an entire SMT production line that includes reflux furnaces, template printers, conveyors, loaders, and unloaders. This comprehensive setup enables manufacturers to establish a complete assembly line with seamless integration between different stages of production. By offering a full range of equipment, this machine simplifies the setup process and ensures compatibility between components.

In summary, the SMT Mounting Machine is a versatile and efficient solution for PCB assembly, with a focus on high-speed pick and place operations. Whether you are producing LED bulbs or other electronic devices, this machine provides the capabilities and features necessary to optimize your manufacturing processes and deliver high-quality products to your customers.

Features:

Product Name: SMT Mounting Machine

Installation accuracy: $\pm 0.04\text{mm}$

Nozzles: 24 PCS

Drive way: High-end magnetic linear motor+servo motor

Product Category: SMT Mounting Machine

PCB length width high: 3150mmx2250mmx1650mm

Technical Parameters:

FAQ 4: Offers entire SMT production line including reflux furnaces, template printers, conveyors, take&place machines, loaders, unloaders, etc.	Feeder Station: 48 PCS
Packing and Shipping: Goods are packed in vacuum wooden cases to reduce oxidation and ensure dryness.	Product Name: Multifunctional high performance pick and place machine
Nozzles: 24 PCS	FAQ 2: Machines are easy to operate with a few days of training, no experience required. Engineers provide online training and visit facilities.
PCB thickness: 0.5-5mm	Mounting Speed: 90000CPH
Installation accuracy: $\pm 0.04\text{mm}$	Installation speed: 90000cph

Applications:

When it comes to the application occasions and scenarios for the ETON HT-E6T-600 SMT Mounting Machine, also known as a PCB pick and place machine, the possibilities are vast and varied. This multifunctional high-performance pick and place equipment is designed to meet the demands of a wide range of industries and production requirements.

With certifications including CE, SIRA, CCC, and ISO, the ETON HT-E6T-600 is a reliable and quality machine that can be used in numerous settings. Whether you are in the electronics industry, automotive sector, medical device manufacturing, or any other field that requires precision PCB assembly, this SMT pick and place machine from Shenzhen, China, is a top choice.

One of the key features of the ETON HT-E6T-600 is its impressive mounting speed of 90000CPH, making it ideal for high-volume production environments. Its ability to handle PCB thicknesses ranging from 0.5mm to 5mm further adds to its versatility, allowing it to accommodate a wide range of PCB types.

Whether you are producing LED bulbs, consumer electronics, telecommunications equipment, or any other PCB-based products, the ETON HT-E6T-600 is up to the task. Its robust construction, precise placement capabilities, and efficient operation make it a valuable asset in any manufacturing facility.

With a minimum order quantity of 1 unit and a price range of USD10000 to USD43000 per unit, the ETON HT-E6T-600 offers a cost-effective solution for businesses of all sizes. Flexible payment terms including T/T, L/C, Western Union, MoneyGram, and D/P make it easy to acquire this top-of-the-line SMT mounting machine.

With a supply ability of 30 units per month and a delivery time of within 15 days after receiving the downpayment, the ETON HT-E6T-600 ensures that your production needs are met in a timely manner. Its packaging details in a standard export wooden case package demonstrate its commitment to safe and secure transportation.

In conclusion, the ETON HT-E6T-600 is the go-to choice for companies seeking a reliable, efficient, and versatile PCB pick and place

machine. Its exceptional performance, wide-ranging applications, and industry-leading specifications make it a valuable asset in any manufacturing environment.

Support and Services:

Our SMT Mounting Machine product comes with comprehensive Product Technical Support and Services to ensure optimal performance and customer satisfaction. Our dedicated team of experts is available to assist with installation, setup, troubleshooting, and maintenance of the machine.

We provide regular software updates, training sessions, and documentation to help users maximize the capabilities of the SMT Mounting Machine. Our technical support team is committed to delivering timely and effective solutions to any issues that may arise, ensuring minimal downtime and seamless operation.

Customers can rely on our Product Technical Support and Services to enhance productivity, efficiency, and overall satisfaction with our SMT Mounting Machine.

Packing and Shipping:

Product Name: SMT Mounting Machine

Description: Our SMT Mounting Machine is a high-precision equipment designed for efficient surface mount assembly of electronic components.

Package Includes: SMT Mounting Machine, Power Cable, User Manual.

Shipping Information: This product will be securely packaged and shipped within 2 business days of placing the order. Shipping times may vary depending on the destination.

FAQ:

Q: What is the brand name of the SMT Mounting Machine?

A: The brand name is ETON.

Q: What is the model number of the SMT Mounting Machine?

A: The model number is HT-E6T-600.

Q: Where is the SMT Mounting Machine manufactured?

A: It is manufactured in Shenzhen, China.

Q: What are the accepted payment terms for purchasing the SMT Mounting Machine?

A: The accepted payment terms are T/T, L/C, Western Union, MoneyGram, D/P.

Q: What is the minimum order quantity for the SMT Mounting Machine?

A: The minimum order quantity is 1 UNIT.
